Question 04:

How did analysis of market conditions inform your analysis in setting short, medium and long term success targets?

Response to Question 04:

Please refer to SCE's response to Question 2 for more information about how SCE established targets for the metrics in its Amended Business Plan. Analysis of market conditions did not directly inform SCE's development of its metrics targets, however, SCE's savings targets are largely based on the Navigant Potential Study, which takes market conditions into account. SCE used its analysis of market conditions to select intervention strategies for its portfolio.
