Submitted: June 2, 2017

CEE DATA REQUEST SET TWO (QUESTIONS 38 – 47)

42. Response to CEE SDG&E Data Request Question 17 (a) states that “HVAC Commercial Quality Maintenance (QM) programs require skills standards and certification requirements fulfilling the commitment outlined in the February 23, 2015 Advice Letter and PIP Addendum.” This response does not indicate whether any *new* skill standards or certification requirements were adopted *in response* to the February 23, 2015 Advice Letter and PIP Addendum.

- a. Please identify specifically what, if any, skills standards or certification requirements were added to the HVAC Commercial Quality Maintenance (QM) programs after the February 23, 2015 Advice Letter and PIP Addendum.
- b. The Advice Letter references both HVAC Quality Installation and Quality Maintenance as programs that would initiate the adoption of skill certification requirements. Were skill certification requirements adopted for HVAC Quality Installation programs as a result of implementation of the February 23, 2015 Advice Letter and PIP Addendum?

SDG&E Response:

42(a): No new skill standards or certification requirements were added to the HVAC Commercial Quality Maintenance (QM) programs after the February 23, 2015 Advice Letter and PIP Addendum. At the time of the Advice Letter filing, skills standards and certification requirements were already in place for SDG&E’s Commercial HVAC QM programs.

42(b): No new skill certification requirements were adopted for HVAC Quality Installation programs as a result of implementation of the February 23, 2015 Advice Letter and PIP Addendum. See SDG&E response to Question 42(a).
