Okay. I've not heard any worrisome stuff about that guy and am surprised that Mary didn't feel compelled to be on the call.

That's what I figured and that's why I was concerned with the request for a call. I spoke with Ed (Edward) Osann, Policy Analyst. PGE was not on the call, Mary I am guessing shared with them that we would be leading the measure and provided them my contact info.

Okay. Let's talk more about the extent to which we will work with them. We've been having some challenges with NRDC over the past few months.

Who specifically did you speak with and, was PG&E on the call?

Hey Sue,

The call went well, NRDC is very interested in the Tub Spouts so they want to make sure that we work in collaboration with them as they have conducted life-cycle testing of diverters. PGE started these conversations with them prior to us taking this measure so they had discussed potential testing. So I will just work to keep them in the discussions.

Hi Sue,

I just wanted to keep you in the loop. We have taken on the Tub Spout T20 measure and NRDC has reached out asking for a meeting. I will be having a quick call with them today 2-2:15 and have included Marc and Bo.

From what Mary has previously stated PGE had already been in preliminary discussions with Ed Osann, Policy Analyst, of NRDC with respect to the potential Title 20 update for tub spout diverters about potential testing.

Thank You,

*Daniela Garcia*

Hi Susan,

Yes, we just took the lead for that measure. With that being said we don't have anything to share yet but we can set something up if there's something you would to share. We will have a draft project plan early to mid-July so we could always set something up then as well since Ed will be back by then.

Thanks!

Hi Daniela,

My name is Susan Lee and I support Ed Osann at NRDC. I am following up on the email Ed sent yesterday. Will you be available for a call today?

Thank you,

**Subject:** Check In on Diverters (Title 20)

Hi Daniela –  
I understand that you have the lead for the CA utilities team on CEC rulemaking for tub spout diverters. We also have an interest in supporting revised Title 20 standards for these products, as they offer a cost effective opportunity to save both energy and water. Any chance we can compare notes with you and/or your technical consultant? I'm around today and tomorrow, but after that I'll be out of the country for the rest of June.

Ed
