

[COMMITTEE PRINT]

114TH CONGRESS  
1ST SESSION

**H. R.** \_\_\_\_\_

To modernize energy infrastructure, build a 21st century energy and manufacturing workforce, bolster America’s energy security and diplomacy, and promote energy efficiency and government accountability, and for other purposes.

---

IN THE HOUSE OF REPRESENTATIVES

M. \_\_\_\_\_ introduced the following bill; which was referred to the  
Committee on \_\_\_\_\_

---

**A BILL**

To modernize energy infrastructure, build a 21st century energy and manufacturing workforce, bolster America’s energy security and diplomacy, and promote energy efficiency and government accountability, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

4 (a) SHORT TITLE.—This Act may be cited as the  
5 “\_\_\_\_\_ Act of 2015”.

1 (b) TABLE OF CONTENTS.—The table of contents for  
2 this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—MODERNIZING AND PROTECTING INFRASTRUCTURE

- Sec. 1101. FERC process coordination.
- Sec. 1102. Resolving environmental and grid reliability conflicts.
- Sec. 1103. Emergency preparedness for energy supply disruptions.
- Sec. 1104. Critical electric infrastructure security.
- Sec. 1105. Strategic Transformer Reserve.
- Sec. 1106. Cyber Sense.
- Sec. 1107. State coverage and consideration of PURPA standards for electric utilities.
- Sec. 1108. Reliability and performance assurance in mandatory capacity markets.

TITLE II—21ST CENTURY WORKFORCE

Sec. 2101. Energy and manufacturing workforce development.

TITLE III—ENERGY SECURITY AND DIPLOMACY

- Sec. 3101. Sense of Congress.
- Sec. 3102. Energy security valuation.
- Sec. 3103. North American energy security plan.
- Sec. 3104. Collective energy security.
- Sec. 3105. Strategic Petroleum Reserve mission readiness plan.

TITLE IV—ENERGY EFFICIENCY AND ACCOUNTABILITY

Subtitle A—Energy Efficiency

CHAPTER 1—FEDERAL AGENCY ENERGY EFFICIENCY

- Sec. 4111. Energy-efficient and energy-saving information technologies.
- Sec. 4112. Energy efficient data centers.
- Sec. 4113. Report on energy and water savings potential from thermal insulation.
- Sec. 4114. Federal purchase requirement.

CHAPTER 2—ENERGY EFFICIENT TECHNOLOGY AND MANUFACTURING

- Sec. 4121. Inclusion of Smart Grid capability on Energy Guide labels.
- Sec. 4122. Voluntary verification programs for air conditioning, furnace, boiler, heat pump, and water heater products.
- Sec. 4123. Facilitating consensus furnace standards.
- Sec. 4124. Future of Industry program.

CHAPTER 3—ENERGY PERFORMANCE CONTRACTING

Sec. 4131. Use of energy and water efficiency measures in Federal buildings.

CHAPTER 4—SCHOOL BUILDINGS

Sec. 4141. Coordination of energy retrofitting assistance for schools.

Subtitle B—Accountability

CHAPTER 1—MARKET MANIPULATION, ENFORCEMENT, AND COMPLIANCE

Sec. 4211. FERC Office of Compliance Assistance and Public Participation.

CHAPTER 2—MARKET REFORMS

Sec. 4221. GAO study on wholesale electricity markets.

1       **TITLE I—MODERNIZING AND**  
2       **PROTECTING INFRASTRUCTURE**

3       **SEC. 1101. FERC PROCESS COORDINATION.**

4       Section 15 of the Natural Gas Act (15 U.S.C. 717n)  
5 is amended—

6           (1) by amending subsection (b)(2) to read as  
7 follows:

8           “(2) OTHER AGENCIES.—

9           “(A) IN GENERAL.—Each Federal and  
10 State agency considering an aspect of an appli-  
11 cation for Federal authorization shall cooperate  
12 with the Commission and comply with the dead-  
13 lines established by the Commission.

14           “(B) IDENTIFICATION.—The Commission  
15 shall identify, as early as practicable after it is  
16 notified by a prospective applicant of a potential  
17 project requiring Commission authorization,  
18 any Federal or State agency, local government,  
19 or Indian tribe that may consider an aspect of  
20 an application for that Federal authorization.

21           “(C) NOTIFICATION.—

1                   “(i) IN GENERAL.—The Commission  
2                   shall notify any agency identified under  
3                   subparagraph (B) of the opportunity to co-  
4                   operate or participate in the review proc-  
5                   ess.

6                   “(ii) DEADLINE.—A notification  
7                   issued under clause (i) shall establish a  
8                   deadline by which a response to the notifi-  
9                   cation shall be submitted, which may be  
10                  extended by the Commission for good  
11                  cause.”;

12                  (2) in subsection (c)—

13                   (A) in paragraph (1)—

14                   (i) by striking “and” at the end of  
15                   subparagraph (A);

16                   (ii) by redesignating subparagraph  
17                   (B) as subparagraph (C); and

18                   (iii) by inserting after subparagraph  
19                   (A) the following new subparagraph:

20                   “(B) set deadlines for all such Federal au-  
21                   thorizations; and”;

22                   (B) by striking paragraph (2); and

23                   (C) by adding at the end the following new  
24                   paragraphs:

1           “(2) DEADLINE FOR FEDERAL AUTHORIZA-  
2           TIONS.—A final decision on a Federal authorization  
3           is due no later than 90 days after the Commission  
4           issues its final environmental document, unless a  
5           schedule is otherwise established by Federal law.

6           “(3) COMMISSION RECOMMENDATION.—To en-  
7           sure that timely decisions are made and that the re-  
8           sponsibilities of each Federal and State agency are  
9           met when making a decision with respect to a Fed-  
10          eral authorization, the Commission shall coordinate  
11          its efforts with Federal and State agencies and make  
12          a recommendation on the scope of the environmental  
13          review that the Commission determines to be appro-  
14          priate. Each Federal and State agency shall give  
15          deference to the Commission’s recommendation as  
16          appropriate and in accordance with applicable Fed-  
17          eral law.

18          “(4) CONCURRENT REVIEWS.—Each Federal  
19          and State agency considering an aspect of an appli-  
20          cation for a Federal authorization shall—

21                 “(A) carry out the obligations of that  
22                 agency under applicable law concurrently, and  
23                 in conjunction, with the review required by the  
24                 National Environmental Policy Act of 1969 (42  
25                 U.S.C. 4321 et seq.), unless doing so would im-

1 pair the ability of the agency to conduct needed  
2 analysis or otherwise carry out those obliga-  
3 tions;

4 “(B) formulate and implement administra-  
5 tive, policy, and procedural mechanisms to en-  
6 able the agency to ensure completion of re-  
7 quired Federal authorizations no later than 90  
8 days after the Commission issues its final envi-  
9 ronmental document; and

10 “(C) transmit to the Commission a state-  
11 ment—

12 “(i) acknowledging receipt of the  
13 schedule established under paragraph (1);  
14 and

15 “(ii) setting forth the plan formulated  
16 under subparagraph (B) of this paragraph.

17 “(5) ISSUE IDENTIFICATION AND RESOLU-  
18 TION.—

19 “(A) IDENTIFICATION.—Federal and State  
20 agencies that may consider an aspect of an ap-  
21 plication for Federal authorization shall iden-  
22 tify, as early as possible, any issues of concern  
23 that may delay or prevent an agency from  
24 working with the Commission to resolve such  
25 issues and granting such authorization.

1           “(B) ISSUE RESOLUTION.—The Commis-  
2           sion may forward any issue of concern identi-  
3           fied under subparagraph (A) to the heads of  
4           the relevant agencies (including, in the case of  
5           a failure by the State agency, the Federal agen-  
6           cy overseeing the delegated authority) for reso-  
7           lution.

8           “(6) FAILURE TO MEET SCHEDULE.—If a Fed-  
9           eral or State agency does not complete a proceeding  
10          for an approval that is required for a Federal au-  
11          thorization in accordance with the schedule estab-  
12          lished by the Commission under paragraph (1)—

13                 “(A) the applicant may pursue remedies  
14                 under section 19(d); and

15                 “(B) the head of the relevant Federal  
16                 agency (including, in the case of a failure by a  
17                 State agency, the Federal agency overseeing the  
18                 delegated authority) shall notify Congress and  
19                 the Commission of such failure and set forth a  
20                 recommended implementation plan to ensure  
21                 completion of the proceeding for an approval.”;

22                 (3) by redesignating subsections (d) through (f)  
23                 as subsections (f) through (h), respectively; and

24                 (4) by inserting after subsection (c) the fol-  
25                 lowing new subsections:

1           “(d) APPLICATION PROCESSING.—The Commission,  
2 and Federal and State agencies, may allow an applicant  
3 seeking Federal authorization to fund a third party con-  
4 tractor to assist in reviewing the application.

5           “(e) ACCOUNTABILITY, TRANSPARENCY, EFFI-  
6 CIENCY.—For applications requiring multiple Federal au-  
7 thorizations, the Commission, with input from any Federal  
8 or State agency considering an aspect of an application,  
9 shall track and make available to the public on the Com-  
10 mission’s website information related to the actions re-  
11 quired to complete permitting, reviews, and other actions  
12 required. Such information shall include the following:

13           “(1) The schedule established by the Commis-  
14 sion under subsection (c)(1).

15           “(2) A list of all the actions required by each  
16 applicable agency to complete permitting, reviews,  
17 and other actions necessary to obtain a final decision  
18 on the Federal authorization.

19           “(3) The expected completion date for each  
20 such action.

21           “(4) A point of contact at the agency account-  
22 able for each such action.

23           “(5) In the event that an action is still pending  
24 as of the expected date of completion, a brief expla-  
25 nation of the reasons for the delay.”.

1 **SEC. 1102. RESOLVING ENVIRONMENTAL AND GRID RELI-**  
2 **ABILITY CONFLICTS.**

3 (a) COMPLIANCE WITH OR VIOLATION OF ENVIRON-  
4 MENTAL LAWS WHILE UNDER EMERGENCY ORDER.—  
5 Section 202(c) of the Federal Power Act (16 U.S.C.  
6 824a(c)) is amended—

7 (1) by inserting “(1)” after “(c)”; and

8 (2) by adding at the end the following:

9 “(2) With respect to an order issued under this sub-  
10 section that may result in a conflict with a requirement  
11 of any Federal, State, or local environmental law or regu-  
12 lation, the Commission shall ensure that such order re-  
13 quires generation, delivery, interchange, or transmission  
14 of electric energy only during hours necessary to meet the  
15 emergency and serve the public interest, and, to the max-  
16 imum extent practicable, is consistent with any applicable  
17 Federal, State, or local environmental law or regulation  
18 and minimizes any adverse environmental impacts.

19 “(3) To the extent any omission or action taken by  
20 a party, that is necessary to comply with an order issued  
21 under this subsection, including any omission or action  
22 taken to voluntarily comply with such order, results in  
23 noncompliance with, or causes such party to not comply  
24 with, any Federal, State, or local environmental law or  
25 regulation, such omission or action shall not be considered  
26 a violation of such environmental law or regulation, or

1 subject such party to any requirement, civil or criminal  
2 liability, or a citizen suit under such environmental law  
3 or regulation.

4 “(4)(A) An order issued under this subsection that  
5 may result in a conflict with a requirement of any Federal,  
6 State, or local environmental law or regulation shall expire  
7 not later than 90 days after it is issued. The Commission  
8 may renew or reissue such order pursuant to paragraphs  
9 (1) and (2) for subsequent periods, not to exceed 90 days  
10 for each period, as the commission determines necessary  
11 to meet the emergency and serve the public interest.

12 “(B) In renewing or reissuing an order under sub-  
13 paragraph (A), the Commission shall consult with the pri-  
14 mary Federal agency with expertise in the environmental  
15 interest protected by such law or regulation, and shall in-  
16 clude in any such renewed or reissued order such condi-  
17 tions as such Federal agency determines necessary to min-  
18 imize any adverse environmental impacts to the extent  
19 practicable. The conditions, if any, submitted by such Fed-  
20 eral agency shall be made available to the public. The  
21 Commission may exclude such a condition from the re-  
22 newed or reissued order if it determines that such condi-  
23 tion would prevent the order from adequately addressing  
24 the emergency necessitating such order and provides in

1 the order, or otherwise makes publicly available, an expla-  
2 nation of such determination.

3 “(5) If an order issued under this subsection is subse-  
4 quently stayed, modified, or set aside by a court pursuant  
5 to section 313 or any other provision of law, any omission  
6 or action previously taken by a party that was necessary  
7 to comply with the order while the order was in effect,  
8 including any omission or action taken to voluntarily com-  
9 ply with the order, shall remain subject to paragraph  
10 (3).”.

11 (b) TEMPORARY CONNECTION OR CONSTRUCTION BY  
12 MUNICIPALITIES.—Section 202(d) of the Federal Power  
13 Act (16 U.S.C. 824a(d)) is amended by inserting “or mu-  
14 nicipality” before “engaged in the transmission or sale of  
15 electric energy”.

16 **SEC. 1103. EMERGENCY PREPAREDNESS FOR ENERGY SUP-**  
17 **PLY DISRUPTIONS.**

18 (a) FINDING.—Congress finds that recent natural  
19 disasters have underscored the importance of having resil-  
20 ient oil and natural gas infrastructure and effective ways  
21 for industry and government to communicate to address  
22 energy supply disruptions.

23 (b) AUTHORIZATION FOR ACTIVITIES TO ENHANCE  
24 EMERGENCY PREPAREDNESS FOR NATURAL DISAS-

1 TERS.—The Secretary of Energy shall develop and adopt  
2 procedures to—

3 (1) improve communication and coordination  
4 between the Department of Energy’s energy re-  
5 sponse team, Federal partners, and industry;

6 (2) leverage the Energy Information Adminis-  
7 tration’s subject matter expertise within the Depart-  
8 ment’s energy response team to improve supply  
9 chain situation assessments;

10 (3) establish company liaisons and direct com-  
11 munication with the Department’s energy response  
12 team to improve situation assessments;

13 (4) streamline and enhance processes for ob-  
14 taining temporary regulatory relief to speed up  
15 emergency response and recovery;

16 (5) facilitate and increase engagement among  
17 States, the oil and natural gas industry, and the De-  
18 partment in developing State and local energy assur-  
19 ance plans;

20 (6) establish routine education and training  
21 programs for key government emergency response  
22 positions with the Department and States; and

23 (7) involve States and the oil and natural gas  
24 industry in comprehensive drill and exercise pro-  
25 grams.

1 (c) COOPERATION.—The activities carried out under  
2 subsection (b) shall include collaborative efforts with State  
3 and local government officials and the private sector.

4 (d) REPORT.—Not later than 180 days after the date  
5 of enactment of this Act, the Secretary of Energy shall  
6 submit to Congress a report describing the effectiveness  
7 of the activities authorized under this section.

8 **SEC. 1104. CRITICAL ELECTRIC INFRASTRUCTURE SECUR-**  
9 **RITY.**

10 (a) CRITICAL ELECTRIC INFRASTRUCTURE SECUR-  
11 RITY.—Part II of the Federal Power Act (16 U.S.C. 824  
12 et seq.) is amended by adding after section 215 the fol-  
13 lowing new section:

14 **“SEC. 215A. CRITICAL ELECTRIC INFRASTRUCTURE SECUR-**  
15 **RITY.**

16 “(a) DEFINITIONS.—For purposes of this section:

17 “(1) BULK-POWER SYSTEM; ELECTRIC RELI-  
18 ABILITY ORGANIZATION; REGIONAL ENTITY.—The  
19 terms ‘bulk-power system’, ‘Electric Reliability Or-  
20 ganization’, and ‘regional entity’ have the meanings  
21 given such terms in paragraphs (1), (2), and (7) of  
22 section 215(a), respectively.

23 “(2) CRITICAL ELECTRIC INFRASTRUCTURE.—  
24 The term ‘critical electric infrastructure’ means a  
25 system or asset of the bulk-power system, whether

1 physical or virtual, the incapacity or destruction of  
2 which would negatively affect national security, eco-  
3 nomic security, public health or safety, or any com-  
4 bination of such matters.

5 “(3) CRITICAL ELECTRIC INFRASTRUCTURE IN-  
6 FORMATION.—The term ‘critical electric infrastruc-  
7 ture information’ means information related to crit-  
8 ical electric infrastructure, or proposed critical elec-  
9 trical infrastructure, generated by or provided to the  
10 Commission or other Federal agency, other than  
11 classified national security information, that is des-  
12 ignated as critical electric infrastructure information  
13 by the Commission under subsection (d)(2). Such  
14 term includes information that qualifies as critical  
15 energy infrastructure information under the Com-  
16 mission’s regulations.

17 “(4) DEFENSE CRITICAL ELECTRIC INFRA-  
18 STRUCTURE.—The term ‘defense critical electric in-  
19 frastructure’ means any electric infrastructure lo-  
20 cated in the United States (including the territories)  
21 that serves a facility designated by the Secretary  
22 pursuant to subsection (c), but is not owned or oper-  
23 ated by the owner or operator of such facility.

24 “(5) ELECTROMAGNETIC PULSE.—The term  
25 ‘electromagnetic pulse’ means 1 or more pulses of

1 electromagnetic energy emitted by a device capable  
2 of disabling or disrupting operation of, or destroy-  
3 ing, electronic devices or communications networks,  
4 including hardware, software, and data, by means of  
5 such a pulse.

6 “(6) GEOMAGNETIC STORM.—The term ‘geo-  
7 magnetic storm’ means a temporary disturbance of  
8 the Earth’s magnetic field resulting from solar activ-  
9 ity.

10 “(7) GRID SECURITY EMERGENCY.—The term  
11 ‘grid security emergency’ means the occurrence or  
12 imminent danger of—

13 “(A)(i) a malicious act using electronic  
14 communication or an electromagnetic pulse, or  
15 a geomagnetic storm event, that could disrupt  
16 the operation of those electronic devices or com-  
17 munications networks, including hardware, soft-  
18 ware, and data, that are essential to the reli-  
19 ability of critical electric infrastructure or of de-  
20 fense critical electric infrastructure; and

21 “(ii) disruption of the operation of such  
22 devices or networks, with significant adverse ef-  
23 fects on the reliability of critical electric infra-  
24 structure or of defense critical electric infra-  
25 structure, as a result of such act or event; or

1           “(B)(i) a direct physical attack on critical  
2           electric infrastructure or on defense critical  
3           electric infrastructure; and

4           “(ii) significant adverse effects on the reli-  
5           ability of critical electric infrastructure or of de-  
6           fense critical electric infrastructure as a result  
7           of such physical attack.

8           “(8) SECRETARY.—The term ‘Secretary’ means  
9           the Secretary of Energy.

10          “(b) AUTHORITY TO ADDRESS GRID SECURITY  
11          EMERGENCY.—

12           “(1) AUTHORITY.—Whenever the President  
13           issues and provides to the Secretary a written direc-  
14           tive or determination identifying a grid security  
15           emergency, the Secretary may, with or without no-  
16           tice, hearing, or report, issue such orders for emer-  
17           gency measures as are necessary in the judgment of  
18           the Secretary to protect or restore the reliability of  
19           critical electric infrastructure or of defense critical  
20           electric infrastructure during such emergency. As  
21           soon as practicable but not later than 180 days after  
22           the date of enactment of this section, the Secretary  
23           shall, after notice and opportunity for comment, es-  
24           tablish rules of procedure that ensure that such au-  
25           thority can be exercised expeditiously.

1           “(2) NOTIFICATION OF CONGRESS.—Whenever  
2           the President issues and provides to the Secretary a  
3           written directive or determination under paragraph  
4           (1), the President shall promptly notify congress-  
5           sional committees of relevant jurisdiction, including  
6           the Committee on Energy and Commerce of the  
7           House of Representatives and the Committee on En-  
8           ergy and Natural Resources of the Senate, of the  
9           contents of, and justification for, such directive or  
10          determination.

11          “(3) CONSULTATION.—Before issuing an order  
12          for emergency measures under paragraph (1), the  
13          Secretary shall, to the extent practicable in light of  
14          the nature of the grid security emergency and the  
15          urgency of the need for action, consult with appro-  
16          priate governmental authorities in Canada and Mex-  
17          ico, entities described in paragraph (4), the Elec-  
18          tricity Sub-sector Coordinating Council, the Commis-  
19          sion, and other appropriate Federal agencies regard-  
20          ing implementation of such emergency measures.

21          “(4) APPLICATION.—An order for emergency  
22          measures under this subsection may apply to—

23                  “(A) the Electric Reliability Organization;

24                  “(B) a regional entity; or

1           “(C) any owner, user, or operator of crit-  
2           ical electric infrastructure or of defense critical  
3           electric infrastructure within the United States.

4           “(5) EXPIRATION AND REISSUANCE.—

5           “(A) IN GENERAL.—Except as provided in  
6           subparagraph (B), an order for emergency  
7           measures issued under paragraph (1) shall ex-  
8           pire no later than 15 days after its issuance.

9           “(B) EXTENSIONS.—The Secretary may  
10          reissue an order for emergency measures issued  
11          under paragraph (1) for subsequent periods,  
12          not to exceed 15 days for each such period, pro-  
13          vided that the President, for each such period,  
14          issues and provides to the Secretary a written  
15          directive or determination that the grid security  
16          emergency identified under paragraph (1) con-  
17          tinues to exist or that the emergency measure  
18          continues to be required.

19          “(6) COST RECOVERY.—

20          “(A) CRITICAL ELECTRIC INFRASTRUC-  
21          TURE.—If the Commission determines that  
22          owners, operators, or users of critical electric  
23          infrastructure have incurred substantial costs to  
24          comply with an order for emergency measures  
25          issued under this subsection and that such costs

1           were prudently incurred and cannot reasonably  
2           be recovered through regulated rates or market  
3           prices for the electric energy or services sold by  
4           such owners, operators, or users, the Commis-  
5           sion shall, consistent with the requirements of  
6           section 205, after notice and an opportunity for  
7           comment, establish a mechanism that permits  
8           such owners, operators, or users to recover such  
9           costs.

10                   “(B) DEFENSE CRITICAL ELECTRIC INFRA-  
11           STRUCTURE.—To the extent the owner or oper-  
12           ator of defense critical electric infrastructure is  
13           required to take emergency measures pursuant  
14           to an order issued under this subsection, the  
15           owners or operators of a critical defense facility  
16           or facilities designated by the Secretary pursu-  
17           ant to subsection (c) that rely upon such infra-  
18           structure shall bear the full incremental costs of  
19           the measures.

20                   “(7) TEMPORARY ACCESS TO CLASSIFIED IN-  
21           FORMATION.—The Secretary, and other appropriate  
22           Federal agencies, shall, to the extent practicable and  
23           consistent with their obligations to protect classified  
24           information, provide temporary access to classified  
25           information related to a grid security emergency for

1       which emergency measures are issued under para-  
2       graph (1) to key personnel of any entity subject to  
3       such emergency measures to enable optimum com-  
4       munication between the entity and the Secretary and  
5       other appropriate Federal agencies regarding the  
6       grid security emergency.

7       “(c) DESIGNATION OF CRITICAL DEFENSE FACILI-  
8       TIES.—Not later than 180 days after the date of enact-  
9       ment of this section, the Secretary, in consultation with  
10      other appropriate Federal agencies and appropriate own-  
11      ers, users, or operators of infrastructure that may be de-  
12      fense critical electric infrastructure, shall identify and des-  
13      ignate facilities located in the United States (including the  
14      territories) that are—

15               “(1) critical to the defense of the United States;

16               and

17               “(2) vulnerable to a disruption of the supply of  
18               electric energy provided to such facility by an exter-  
19               nal provider.

20      The Secretary may, in consultation with appropriate Fed-  
21      eral agencies and appropriate owners, users, or operators  
22      of defense critical electric infrastructure, periodically re-  
23      vise the list of designated facilities as necessary.

24       “(d) PROTECTION AND SHARING OF CRITICAL ELEC-  
25      TRIC INFRASTRUCTURE INFORMATION.—

1           “(1) PROTECTION OF CRITICAL ELECTRIC IN-  
2           FRASTRUCTURE INFORMATION.—Critical electric in-  
3           frastructure information—

4                   “(A) shall be exempt from disclosure under  
5                   section 552(b)(3) of title 5, United States Code;  
6                   and

7                   “(B) shall not be made available by any  
8                   Federal, State, political subdivision or tribal au-  
9                   thority pursuant to any Federal, State, political  
10                  subdivision or tribal law requiring disclosure of  
11                  information or records.

12           “(2) DESIGNATION AND SHARING OF CRITICAL  
13           ELECTRIC INFRASTRUCTURE INFORMATION.—Not  
14           later than one year after the date of enactment of  
15           this section, the Commission, in consultation with  
16           the Secretary of Energy, shall promulgate such reg-  
17           ulations and issue such orders as necessary to—

18                   “(A) designate information as critical elec-  
19                   tric infrastructure information;

20                   “(B) prohibit the unauthorized disclosure  
21                   of critical electric infrastructure information;

22                   “(C) ensure there are appropriate sanc-  
23                   tions in place for Commissioners, officers, em-  
24                   ployees, or agents of the Commission who  
25                   knowingly and willfully disclose critical electric

1 infrastructure information in a manner that is  
2 not authorized under this section; and

3 “(D) taking into account standards of the  
4 Electric Reliability Organization, facilitate vol-  
5 untary sharing of critical electric infrastructure  
6 information with, between, and by—

7 “(i) Federal, State, political subdivi-  
8 sion, and tribal authorities;

9 “(ii) the Electric Reliability Organiza-  
10 tion;

11 “(iii) regional entities;

12 “(iv) information sharing and analysis  
13 centers established pursuant to Presi-  
14 dential Decision Directive 63;

15 “(v) owners, operators, and users of  
16 critical electric infrastructure in the United  
17 States; and

18 “(vi) other entities determined appro-  
19 priate by the Commission.

20 “(3) CONSIDERATIONS.—In promulgating regu-  
21 lations and issuing orders under paragraph (2), the  
22 Commission shall take into consideration the role of  
23 State commissions in reviewing the prudence and  
24 cost of investments, determining the rates and terms  
25 of conditions for electric services, and ensuring the

1 safety and reliability of the bulk-power system and  
2 distribution facilities within their respective jurisdic-  
3 tions.

4 “(4) PROTOCOLS.—The Commission shall, in  
5 consultation with Canadian and Mexican authorities,  
6 develop protocols for the voluntary sharing of critical  
7 electric infrastructure information with Canadian  
8 and Mexican authorities and owners, operators, and  
9 users of the bulk-power system outside the United  
10 States.

11 “(5) NO REQUIRED SHARING OF INFORMA-  
12 TION.—Nothing in this section shall require a person  
13 or entity in possession of critical electric infrastruc-  
14 ture information to share such information with  
15 Federal, State, local, or tribal authorities, or any  
16 other person or entity.

17 “(6) DISCLOSURE OF NON-CRITICAL ELECTRIC  
18 INFRASTRUCTURE INFORMATION.—In implementing  
19 this section, the Commission shall segregate critical  
20 electric infrastructure information within documents  
21 and electronic communications, wherever feasible, to  
22 facilitate disclosure of information that is not des-  
23 ignated as critical electric infrastructure informa-  
24 tion.

1           “(e) SECURITY CLEARANCES.—The Secretary shall  
2 facilitate and, to the extent practicable, expedite the acqui-  
3 sition of adequate security clearances by key personnel of  
4 any entity subject to the requirements of this section, to  
5 enable optimum communication with Federal agencies re-  
6 garding threats to the security of the critical electric infra-  
7 structure. The Secretary, the Commission, and other ap-  
8 propriate Federal agencies shall, to the extent practicable  
9 and consistent with their obligations to protect classified  
10 and critical electric infrastructure information, share time-  
11 ly actionable information regarding grid security with ap-  
12 propriate key personnel of owners, operators, and users  
13 of the critical electric infrastructure.

14           “(f) CLARIFICATIONS OF LIABILITY.—

15                 “(1) COMPLIANCE WITH OR VIOLATION OF THIS  
16 ACT.—Except as provided in paragraph (4), to the  
17 extent any action or omission taken by an entity  
18 that is necessary to comply with an order for emer-  
19 gency measures issued under subsection (b)(1), in-  
20 cluding any action or omission taken to voluntarily  
21 comply with such order, results in noncompliance  
22 with, or causes such entity not to comply with any  
23 rule, order, regulation, or provision of this Act, in-  
24 cluding any reliability standard approved by the  
25 Commission pursuant to section 215, such action or

1 omission shall not be considered a violation of such  
2 rule, order, regulation, or provision.

3 “(2) RELATION TO SECTION 202(c).—Except as  
4 provided in paragraph (4), an action or omission  
5 taken by an owner, operator, or user of critical elec-  
6 tric infrastructure or of defense critical electric in-  
7 frastructure to comply with an order for emergency  
8 measures issued under subsection (b)(1) shall be  
9 treated as an action or omission taken to comply  
10 with an order issued under section 202(c) for pur-  
11 poses of such section.

12 “(3) SHARING OR RECEIPT OF INFORMATION.—  
13 No cause of action shall lie or be maintained in any  
14 Federal or State court for the sharing or receipt of  
15 information under, and that is conducted in accord-  
16 ance with, subsection (d).

17 “(4) RULE OF CONSTRUCTION.—Nothing in  
18 this subsection shall be construed to require dis-  
19 missal of a cause of action against an entity that,  
20 in the course of complying with an order for emer-  
21 gency measures issued under subsection (b)(1) by  
22 taking an action or omission for which they would  
23 be liable but for paragraph (1) or (2), takes such ac-  
24 tion or omission in a grossly negligent manner.”.

25 (b) CONFORMING AMENDMENTS.—

1           (1) JURISDICTION.—Section 201(b)(2) of the  
2           Federal Power Act (16 U.S.C. 824(b)(2)) is amend-  
3           ed by inserting “215A,” after “215,” each place it  
4           appears.

5           (2) PUBLIC UTILITY.—Section 201(e) of the  
6           Federal Power Act (16 U.S.C. 824(e)) is amended  
7           by inserting “215A,” after “215,”.

8   **SEC. 1105. STRATEGIC TRANSFORMER RESERVE.**

9           (a) FINDING.—Congress finds that the storage of  
10          strategically located spare large power transformers will  
11          reduce the vulnerability of the United States to multiple  
12          risks facing electric grid reliability, including physical at-  
13          tack, cyber attack, electromagnetic pulse, geomagnetic dis-  
14          turbances, severe weather, and seismic events.

15          (b) DEFINITIONS.—In this section:

16               (1) BULK-POWER SYSTEM.—The term “bulk-  
17               power system” has the meaning given such term in  
18               section 215(a) of the Federal Power Act (16 U.S.C.  
19               824o(a)).

20               (2) CRITICALLY DAMAGED LARGE POWER  
21               TRANSFORMER.—The term “critically damaged large  
22               power transformer” means a large power trans-  
23               former that—

24                       (A) has sustained extensive damage such  
25                       that—

1 (i) repair or refurbishment is not eco-  
2 nomically viable; or

3 (ii) the extensive time to repair or re-  
4 furbish the large power transformer would  
5 create an extended period of instability in  
6 the bulk-power system; and

7 (B) prior to sustaining such damage, was  
8 part of the bulk-power system.

9 (3) ELECTRIC RELIABILITY ORGANIZATION.—

10 The term “Electric Reliability Organization” has the  
11 meaning given such term in section 215(a) of the  
12 Federal Power Act (16 U.S.C. 824o(a)).

13 (4) LARGE POWER TRANSFORMER.—The term  
14 “large power transformer” means a power trans-  
15 former with a maximum nameplate rating of 100  
16 megavolt-amperes or higher, including related crit-  
17 ical equipment, that is, or is intended to be, a part  
18 of the bulk-power system.

19 (5) SECRETARY.—The term “Secretary” means  
20 the Secretary of Energy.

21 (6) SPARE LARGE POWER TRANSFORMER.—The  
22 term “spare large power transformer” means a large  
23 power transformer that is stored within the Stra-  
24 tegic Transformer Reserve to be available to tempo-

1 rarely replace a critically damaged large power trans-  
2 former.

3 (c) STRATEGIC TRANSFORMER RESERVE PLAN.—

4 (1) PLAN.—Not later than one year after the  
5 date of enactment of this Act, the Secretary, acting  
6 through the Office of Electricity Delivery and En-  
7 ergy Reliability, shall, in consultation with the Fed-  
8 eral Energy Regulatory Commission, the Electricity  
9 Sub-sector Coordinating Council, and the Electric  
10 Reliability Organization, prepare and submit to Con-  
11 gress a plan to establish a Strategic Transformer  
12 Reserve for the storage, in strategically-located fa-  
13 cilities, of spare large power transformers in suffi-  
14 cient numbers to temporarily replace critically dam-  
15 aged large power transformers.

16 (2) INCLUSIONS.—The Strategic Transformer  
17 Reserve plan shall include a description of—

18 (A) the appropriate number and type of  
19 spare large power transformers necessary to  
20 provide or restore sufficient resiliency to the  
21 bulk-power system to mitigate significant im-  
22 pacts to the electric grid resulting from—

- 23 (i) physical attack;  
24 (ii) cyber attack;  
25 (iii) electromagnetic pulse attack;

1 (iv) geomagnetic disturbances;

2 (v) severe weather; or

3 (vi) seismic events;

4 (B) other critical electric grid equipment  
5 for which an inventory of spare equipment is  
6 necessary to provide or restore sufficient resil-  
7 iency to the bulk-power system;

8 (C) the degree to which utility sector ac-  
9 tions or initiatives, including individual utility  
10 ownership of spare equipment, joint ownership  
11 of spare equipment inventory, sharing agree-  
12 ments, or other spare equipment reserves or ar-  
13 rangements, satisfy the needs identified under  
14 subparagraphs (A) and (B);

15 (D) the potential locations for, and feasi-  
16 bility and appropriate number of, strategic stor-  
17 age locations for reserve equipment, including  
18 consideration of—

19 (i) the physical security of such loca-  
20 tions;

21 (ii) the protection of the confiden-  
22 tiality of such locations; and

23 (iii) the proximity of such locations to  
24 sites of potentially critically damaged large  
25 power transformers, so as to enable effi-

1                   cient delivery of spare large power trans-  
2                   formers to such sites;

3                   (E) the necessary degree of flexibility of  
4                   spare large power transformers to be included  
5                   in the Strategic Transformer Reserve to con-  
6                   form to different substation configurations, in-  
7                   cluding consideration of transformer—

8                   (i) power and voltage rating for each  
9                   winding;

10                  (ii) overload requirements;

11                  (iii) impedance between windings;

12                  (iv) configuration of windings; and

13                  (v) tap requirements;

14                  (F) an estimate of the direct cost of the  
15                  Strategic Transformer Reserve, as proposed, in-  
16                  cluding—

17                  (i) the cost of storage facilities for the  
18                  spare large power transformers;

19                  (ii) the cost of the spare large power  
20                  transformers; and

21                  (iii) management, maintenance, and  
22                  operation costs;

23                  (G) the funding options available to estab-  
24                  lish, stock, manage, and maintain the Strategic  
25                  Transformer Reserve, including consideration of

1 fees on owners of bulk-power system facilities  
2 relying on the Strategic Transformer Reserve,  
3 use of Federal appropriations, and public-pri-  
4 vate cost-sharing options;

5 (H) the ease and speed of transportation,  
6 installation, and energization of spare large  
7 power transformers to be included in the Stra-  
8 tegic Transformer Reserve, including consider-  
9 ation of factors such as—

10 (i) transformer transportation weight;

11 (ii) transformer size;

12 (iii) topology of critical substations;

13 (iv) availability of appropriate trans-  
14 former mounting pads;

15 (v) flexibility of the spare large power  
16 transformers as described in subparagraph  
17 (E); and

18 (vi) ability to rapidly transition a  
19 spare large power transformer from stor-  
20 age to energization;

21 (I) eligibility criteria for withdrawal of  
22 spare large power transformers from the Stra-  
23 tegic Transformer Reserve to replace critically  
24 damaged large power transformers;

1           (J) the process by which owners of criti-  
2           cally damaged large power transformers may  
3           apply for a withdrawal from the Strategic  
4           Transformer Reserve;

5           (K) the process by which spare large power  
6           transformers withdrawn from the Strategic  
7           Transformer Reserve are returned to the Stra-  
8           tegic Transformer Reserve or are replaced;

9           (L) possible fees to be paid by owners of  
10          critically damaged large power transformers  
11          that have withdrawn such spare large power  
12          transformers from the Strategic Transformer  
13          Reserve;

14          (M) possible fees to be paid by owners of  
15          large power transformers to cover operating  
16          costs of the Strategic Transformer Reserve;

17          (N) the domestic and international large  
18          power transformer supply chain; and

19          (O) other considerations for designing,  
20          constructing, stocking, funding, and managing  
21          the Strategic Transformer Reserve.

22          (d) ESTABLISHMENT.—The Secretary may establish  
23          a Strategic Transformer Reserve in accordance with the  
24          plan prepared pursuant to subsection (c) after the date

1 that is 6 months after the date on which such plan is sub-  
2 mitted to Congress.

3 (e) DISCLOSURE OF INFORMATION.—Any informa-  
4 tion included in the Strategic Transformer Reserve plan,  
5 or shared in the preparation and development of such  
6 plan, the disclosure of which could cause harm to critical  
7 electric infrastructure (as defined in section 215A of the  
8 Federal Power Act), shall be exempt from disclosure under  
9 section 552(b)(3) of title 5, United States Code, and any  
10 State, tribal, or local law requiring disclosure of informa-  
11 tion or records.

12 **SEC. 1106. CYBER SENSE.**

13 (a) IN GENERAL.—The Secretary of Energy shall es-  
14 tablish a voluntary Cyber Sense program to identify and  
15 promote cyber-secure products intended for use in the  
16 bulk-power system, as defined in section 215(a) of the  
17 Federal Power Act (16 U.S.C. 824o(a)).

18 (b) PROGRAM REQUIREMENTS.—In carrying out sub-  
19 section (a), the Secretary of Energy shall—

20 (1) establish a Cyber Sense testing process to  
21 identify products and technologies intended for use  
22 in the bulk-power system, including products relat-  
23 ing to industrial control systems, such as supervisory  
24 control and data acquisition systems;

1           (2) for products tested and identified under the  
2           Cyber Sense program, establish and maintain cyber-  
3           security vulnerability reporting processes and a re-  
4           lated database;

5           (3) promulgate regulations regarding vulner-  
6           ability reporting processes for products tested and  
7           identified under the Cyber Sense program;

8           (4) provide technical assistance to utilities,  
9           product manufacturers, and other electric sector  
10          stakeholders to develop solutions to mitigate identi-  
11          fied vulnerabilities in products tested and identified  
12          under the Cyber Sense program;

13          (5) biennially review products tested and identi-  
14          fied under the Cyber Sense program for  
15          vulnerabilities and provide analysis with respect to  
16          how such products respond to and mitigate cyber  
17          threats;

18          (6) develop procurement guidance for utilities  
19          for products tested and identified under the Cyber  
20          Sense program;

21          (7) provide reasonable notice to the public, and  
22          solicit comments from the public, prior to estab-  
23          lishing or revising the Cyber Sense testing process;

24          (8) oversee Cyber Sense testing carried out by  
25          third parties; and

1 U.S.C. 2621(d)) is amended by adding the following  
2 at the end:

3 “(20) IMPROVING THE RESILIENCE OF ELEC-  
4 TRIC INFRASTRUCTURE.—

5 “(A) IN GENERAL.—Each electric utility  
6 shall develop a plan to use resiliency-related  
7 technologies and other approaches designed to  
8 improve the resilience of electric infrastructure,  
9 mitigate power outages, continue delivery of  
10 vital services, and maintain the flow of power to  
11 facilities critical to public health, safety, and  
12 welfare, to the extent practicable using the most  
13 current data, metrics, and frameworks related  
14 to current and future threats, including phys-  
15 ical and cyber attacks, electromagnetic pulse at-  
16 tacks, geomagnetic disturbances, seismic events,  
17 and severe weather and other environmental  
18 stressors.

19 “(B) RESILIENCY-RELATED TECH-  
20 NOLOGIES.—For purposes of this paragraph,  
21 examples of resiliency-related technologies in-  
22 clude—

23 “(i) advanced grid technologies capa-  
24 ble of isolating or repairing problems re-  
25 motely, such as advanced metering infra-

1 structure, high-tech sensors, grid moni-  
2 toring and control systems, and remote re-  
3 configuration and redundancy systems;  
4 “(ii) all types of distributed and back-  
5 up generation;  
6 “(iii) microgrids;  
7 “(iv) combined heat and power;  
8 “(v) waste heat resources;  
9 “(vi) energy storage technologies;  
10 “(vii) wiring, cabling, and other dis-  
11 tribution components, including submers-  
12 ible distribution components, and enclo-  
13 sures;  
14 “(viii) electronically-controlled re-  
15 closers and similar technologies for power  
16 restoration; and  
17 “(ix) advanced energy analytics tech-  
18 nology (as described in paragraph (21)).  
19 “(C) RATE RECOVERY.—Each State regu-  
20 latory authority (with respect to each electric  
21 utility for which it has ratemaking authority)  
22 shall consider authorizing each such electric  
23 utility to recover any capital, operating expendi-  
24 ture, or other costs of the electric utility related  
25 to the procurement, deployment, or use of resil-

1           iciency-related technologies, including a reason-  
2           able rate of return on the capital expenditures  
3           of the electric utility for the procurement, de-  
4           ployment, or use of resiliency-related tech-  
5           nologies.

6           “(21) PROMOTING INVESTMENTS IN ADVANCED  
7           ENERGY ANALYTICS TECHNOLOGY.—

8                   “(A) IN GENERAL.—Each electric utility  
9                   shall develop and implement a plan for deploy-  
10                  ing advanced energy analytics technology.

11                  “(B) RATE RECOVERY.—Each State regu-  
12                  latory authority (with respect to each electric  
13                  utility for which it has ratemaking authority)  
14                  shall consider confirming and clarifying, if nec-  
15                  essary, that each such electric utility is author-  
16                  ized to recover the costs of the electric utility  
17                  relating to the procurement, deployment, or use  
18                  of advanced energy analytics technology, con-  
19                  sistent with the Financial Accounting Stand-  
20                  ards Board standard entitled ‘Customer’s Ac-  
21                  counting for Fees Paid in a Cloud Computing  
22                  Arrangement’ (ASU No. 2015–05), including a  
23                  reasonable rate of return on all such costs in-  
24                  curred by the electric utility for the procure-  
25                  ment, deployment, or use of advanced energy

1 analytics technology, provided such technology  
2 is used by the electric utility for purposes of re-  
3 alizing operational efficiencies, cost savings, en-  
4 hanced energy management and customer en-  
5 gagement, improvements in system reliability,  
6 safety, and cybersecurity, or other benefits to  
7 ratepayers.

8 “(C) ADVANCED ENERGY ANALYTICS  
9 TECHNOLOGY.—For purposes of this para-  
10 graph, examples of advanced energy analytics  
11 technology include internet-based and cloud-  
12 based computing solutions and subscription li-  
13 censing models, including software as a service,  
14 that use cyber-physical systems to allow the  
15 correlation of data aggregated from appropriate  
16 data sources and smart grid sensor networks,  
17 and employ analytics and machine learning.

18 “(22) ASSURING ELECTRIC RELIABILITY WITH  
19 RELIABLE GENERATION.—

20 “(A) ASSURANCE OF ELECTRIC RELI-  
21 ABILITY.—Each electric utility shall adopt or  
22 modify policies to ensure that such electric util-  
23 ity incorporates reliable generation into its inte-  
24 grated resource plan to assure the availability

1 of electric energy over a 10-year planning pe-  
2 riod.

3 “(B) RELIABLE GENERATION.—For pur-  
4 poses of this paragraph, ‘reliable generation’  
5 means electric generation facilities with reli-  
6 ability attributes that include—

7 “(i) operational characteristics that  
8 enable the generation of electric energy on  
9 a continuous basis;

10 “(ii) in order to generate electric en-  
11 ergy on a continuous basis—

12 “(I) possession of adequate fuel  
13 on-site;

14 “(II) the operational ability to  
15 generate electric energy from more  
16 than one fuel source; or

17 “(III) fuel certainty, through  
18 contractual obligations, that ensures  
19 adequate fuel supply;

20 “(iii) operational characteristics that  
21 enable the generation of electric energy  
22 during emergency and severe weather con-  
23 ditions; and

1                   “(iv) essential reliability services, in-  
2                   cluding frequency support and voltage sup-  
3                   port, to maintain electric reliability.”.

4                   (2) COMPLIANCE.—

5                   (A) TIME LIMITATIONS.—Section 112(b)  
6                   of the Public Utility Regulatory Policies Act of  
7                   1978 (16 U.S.C. 2622(b)) is amended by add-  
8                   ing at the end the following:

9                   “(7)(A) Not later than 1 year after the date of  
10                  enactment of this paragraph, each State regulatory  
11                  authority (with respect to each electric utility for  
12                  which it has ratemaking authority) and each non-  
13                  regulated electric utility shall commence the consid-  
14                  eration referred to in section 111, or set a hearing  
15                  date for consideration, with respect to the standards  
16                  established by paragraphs (20) and (22) of section  
17                  111(d).

18                  “(B) Not later than 2 years after the date of  
19                  the enactment of this paragraph, each State regu-  
20                  latory authority (with respect to each electric utility  
21                  for which it has ratemaking authority) and each  
22                  nonregulated electric utility shall complete the con-  
23                  sideration, and shall make the determination, re-  
24                  ferred to in section 111 with respect to each stand-

1       ard established by paragraphs (20) and (22) of sec-  
2       tion 111(d).

3           “(8)(A) Not later than 6 months after the date  
4       of enactment of this paragraph, each State regu-  
5       latory authority (with respect to each electric utility  
6       for which it has ratemaking authority) and each  
7       nonregulated electric utility shall commence the con-  
8       sideration referred to in section 111, or set a hear-  
9       ing date for consideration, with respect to the stand-  
10      ard established by paragraph (21) of section 111(d).

11          “(B) Not later than 1 year after the date of en-  
12      actment of this paragraph, each State regulatory au-  
13      thority (with respect to each electric utility for which  
14      it has ratemaking authority) and each nonregulated  
15      electric utility shall complete the consideration, and  
16      shall make the determination, referred to in section  
17      111 with respect to the standard established by  
18      paragraph (21) of section 111(d).”.

19           (B) FAILURE TO COMPLY.—Section 112(c)  
20      of the Public Utility Regulatory Policies Act of  
21      1978 (16 U.S.C. 2622(c)) is amended by add-  
22      ing the following at the end: “In the case of the  
23      standards established by paragraphs (20)  
24      through (22) of section 111(d), the reference  
25      contained in this subsection to the date of en-

1 actment of this Act shall be deemed to be a ref-  
2 erence to the date of enactment of such para-  
3 graphs.”.

4 (C) PRIOR STATE ACTIONS.—Section 112  
5 of the Public Utility Regulatory Policies Act of  
6 1978 (16 U.S.C. 2622(d)) is amended by add-  
7 ing at the end the following new subsection:

8 “(g) PRIOR STATE ACTIONS.—Subsections (b) and  
9 (c) of this section shall not apply to a standard established  
10 by paragraph (20), (21), or (22) of section 111(d) in the  
11 case of any electric utility in a State if—

12 “(1) before the date of enactment of this sub-  
13 section, the State has implemented for such utility  
14 the standard concerned (or a comparable standard);

15 “(2) the State regulatory authority for such  
16 State or relevant nonregulated electric utility has  
17 conducted a proceeding to consider implementation  
18 of the standard concerned (or a comparable stand-  
19 ard) for such utility during the 3-year period ending  
20 on the date of enactment of this subsection; or

21 “(3) the State legislature has voted on the im-  
22 plementation of the standard concerned (or a com-  
23 parable standard) for such utility during the 3-year  
24 period ending on the date of enactment of this sub-  
25 section.”.

1 (b) COVERAGE FOR COMPETITIVE MARKETS.—Sec-  
2 tion 102 of the Public Utility Regulatory Policies Act of  
3 1978 (16 U.S.C. 2612) is amended by adding at the end  
4 the following:

5 “(d) The requirements of this title do not apply to  
6 the operations of an electric utility, or to proceedings re-  
7 specting such operations, to the extent that such oper-  
8 ations or proceedings relate to the competitive sale of re-  
9 tail electric energy that is unbundled or separated from  
10 the regulated provision or sale of distribution service.”.

11 **SEC. 1108. RELIABILITY AND PERFORMANCE ASSURANCE**  
12 **IN MANDATORY CAPACITY MARKETS.**

13 Part II of the Federal Power Act (16 U.S.C. 824 et  
14 seq.) is amended [To be determined].”.

15 **TITLE II—21ST CENTURY**  
16 **WORKFORCE**

17 **SEC. 2101. ENERGY AND MANUFACTURING WORKFORCE DE-**  
18 **VELOPMENT.**

19 (a) IN GENERAL.—The Secretary of Energy (in this  
20 section referred to as the “Secretary”) shall establish and  
21 carry out a comprehensive program to improve education  
22 and training for energy and manufacturing-related jobs in  
23 order to increase the number of skilled workers trained  
24 to work in energy and manufacturing-related fields, in-  
25 cluding by—

1           (1) encouraging underrepresented groups, in-  
2           cluding religious and ethnic minorities, women, vet-  
3           erans, individuals with disabilities, and  
4           socioeconomically disadvantaged individuals to enter  
5           into the science, technology, engineering, and mathe-  
6           matics (in this section referred to as “STEM”)  
7           fields;

8           (2) encouraging the Nation’s education system  
9           to equip students with the skills, mentorships, train-  
10          ing, and technical expertise necessary to fill the em-  
11          ployment opportunities vital to managing and oper-  
12          ating the Nation’s energy and manufacturing indus-  
13          tries;

14          (3) providing students and other candidates for  
15          employment with the necessary skills and certifi-  
16          cations for skilled, semiskilled, and highly skilled en-  
17          ergy and manufacturing-related jobs; and

18          (4) strengthening and more fully engaging De-  
19          partment of Energy programs and labs in carrying  
20          out the Department’s Minorities in Energy Initia-  
21          tive.

22          (b) PRIORITY.—The Secretary shall make educating  
23          and training underrepresented groups for energy and  
24          manufacturing-related jobs a national priority under the  
25          program established under subsection (a).

1           (c) DIRECT ASSISTANCE.—In carrying out the pro-  
2 gram established under subsection (a), the Secretary shall  
3 provide direct assistance (including financial assistance  
4 awards, technical expertise, wraparound services, career  
5 coaching, mentorships, internships, and partnerships) to  
6 schools, community colleges, workforce development orga-  
7 nizations, nonprofit organizations, labor organizations, ap-  
8 prenticeship programs, and minority serving institutions.  
9 The Secretary shall distribute direct assistance in a man-  
10 ner proportional to energy and manufacturing industry  
11 needs and demand for jobs, consistent with information  
12 obtained under subsections (e)(3) and (i).

13           (d) CLEARINGHOUSE.—In carrying out the program  
14 established under subsection (a), the Secretary shall estab-  
15 lish a clearinghouse to—

16           (1) maintain and update information and re-  
17 sources on training and workforce development pro-  
18 grams for energy and manufacturing-related jobs;  
19 and

20           (2) act as a resource, and provide guidance, for  
21 schools, community colleges, universities (including  
22 minority serving institutions), workforce develop-  
23 ment programs, labor management organizations,  
24 and industry organizations that would like to de-

1       velop and implement energy and manufacturing-re-  
2       lated training programs.

3       (e) COLLABORATION.—In carrying out the program  
4       established under subsection (a), the Secretary—

5           (1) shall collaborate with schools, community  
6       colleges, universities (including minority serving in-  
7       stitutions), workforce training organizations, na-  
8       tional laboratories, unions, State energy offices,  
9       workforce investment boards, and the energy and  
10      manufacturing industries;

11          (2) shall encourage and foster collaboration,  
12      mentorships, and partnerships among organizations  
13      (including unions, industry, schools, community col-  
14      leges, workforce development organizations, and col-  
15      leges and universities) that currently provide effec-  
16      tive job training programs in the energy and manu-  
17      facturing fields and institutions (including schools,  
18      community colleges, workforce development pro-  
19      grams, and colleges and universities) that seek to es-  
20      tablish these types of programs in order to share  
21      best practices and approaches that best suit local,  
22      State, and national needs; and

23          (3) shall collaborate with the Bureau of Labor  
24      Statistics, the Department of Commerce, the Bureau  
25      of the Census, and the energy and manufacturing

1 industries to develop a comprehensive and detailed  
2 understanding of the energy and manufacturing  
3 workforce needs and opportunities by State and by  
4 region, and publish an annual report on energy and  
5 manufacturing job creation by the sectors enumer-  
6 ated in subsection (i).

7 (f) GUIDELINES FOR EDUCATIONAL INSTITU-  
8 TIONS.—

9 (1) IN GENERAL.—In carrying out the program  
10 established under subsection (a), the Secretary, in  
11 collaboration with the Secretary of Education, the  
12 Secretary of Commerce, the Secretary of Labor, the  
13 National Science Foundation, and industry shall de-  
14 velop guidelines for educational institutions of all  
15 levels, including for elementary and secondary  
16 schools and community colleges and for under-  
17 graduate, graduate, and postgraduate university pro-  
18 grams, to help provide graduates with the skills nec-  
19 essary to work in energy and manufacturing-related  
20 jobs.

21 (2) INPUT.—The Secretary shall solicit input  
22 from the oil, gas, coal, renewable, nuclear, utility,  
23 energy-intensive and advanced manufacturing, and  
24 pipeline industries in developing guidelines under  
25 paragraph (1).

1           (3) ENERGY AND MANUFACTURING EFFICIENCY  
2           AND CONSERVATION INITIATIVES.—The guidelines  
3           developed under paragraph (1) shall include grade-  
4           specific guidelines for teaching energy and manufac-  
5           turing efficiency and conservation initiatives to edu-  
6           cate students and families.

7           (4) STEM EDUCATION.—The guidelines devel-  
8           oped under paragraph (1) shall promote STEM edu-  
9           cation as it relates to job opportunities in energy  
10          and manufacturing-related fields of study in schools,  
11          community colleges, and universities nationally.

12          (g) OUTREACH TO MINORITY SERVING INSTITU-  
13          TIONS.—In carrying out the program established under  
14          subsection (a), the Secretary shall—

15               (1) give special consideration to increasing out-  
16               reach to minority serving institutions (including his-  
17               torically black colleges and universities, predomi-  
18               nantly black institutions, Hispanic serving institu-  
19               tions, and tribal institutions);

20               (2) make resources available to minority serving  
21               institutions with the objective of increasing the num-  
22               ber of skilled minorities and women trained to go  
23               into the energy and manufacturing sectors;

24               (3) encourage industry to improve the opportu-  
25               nities for students of minority serving institutions to

1 participate in industry internships and cooperative  
2 work/study programs; and

3 (4) partner with the Department of Energy lab-  
4 oratories to increase underrepresented groups' par-  
5 ticipation in internships, fellowships, traineeships,  
6 and employment at all Department of Energy lab-  
7 oratories.

8 (h) OUTREACH TO DISPLACED AND UNEMPLOYED  
9 ENERGY AND MANUFACTURING WORKERS.—In carrying  
10 out the program established under subsection (a), the Sec-  
11 retary shall—

12 (1) give special consideration to increasing out-  
13 reach to employers and job trainers preparing dis-  
14 placed and unemployed energy and manufacturing  
15 workers for emerging energy and manufacturing  
16 jobs;

17 (2) make resources available to institutions  
18 serving displaced and unemployed energy and manu-  
19 facturing workers with the objective of training indi-  
20 viduals to re-enter the energy and manufacturing  
21 workforce; and

22 (3) encourage the energy and manufacturing in-  
23 dustries to improve opportunities for displaced and  
24 unemployed energy and manufacturing workers to

1       participate in internships and cooperative work/study  
2       programs.

3       (i) GUIDELINES TO DEVELOP SKILLS FOR AN EN-  
4       ERGY AND MANUFACTURING INDUSTRY WORKFORCE.—In  
5       carrying out the program established under subsection (a),  
6       the Secretary shall collaborate with representatives from  
7       the energy and manufacturing industries (including the  
8       oil, gas, coal, nuclear, utility, pipeline, renewable, petro-  
9       chemical, manufacturing, and electrical construction sec-  
10      tors) to identify the areas of highest need in each sector  
11      and to develop guidelines for the skills necessary to de-  
12      velop a workforce trained to go into the following sectors  
13      of the energy and manufacturing sectors:

14           (1) Energy efficiency industry, including work  
15           in energy efficiency, conservation, weatherization, or  
16           retrofitting, or as inspectors or auditors.

17           (2) Pipeline industry, including work in pipeline  
18           construction and maintenance or work as engineers  
19           or technical advisors.

20           (3) Utility industry, including work in the gen-  
21           eration, transmission, and distribution of electricity  
22           and natural gas, such as utility technicians, opera-  
23           tors, lineworkers, engineers, scientists, and informa-  
24           tion technology specialists.

1           (4) Alternative fuels, including work in biofuel  
2           development and production.

3           (5) Nuclear industry, including work as sci-  
4           entists, engineers, technicians, mathematicians, or  
5           security personnel.

6           (6) Oil and gas industry, including work as sci-  
7           entists, engineers, technicians, mathematicians, pe-  
8           trochemical engineers, or geologists.

9           (7) Renewable industry, including work in the  
10          development, manufacturing, and production of re-  
11          newable energy sources (such as solar, hydropower,  
12          wind, or geothermal energy).

13          (8) Coal industry, including work as coal min-  
14          ers, engineers, developers and manufacturers of  
15          state-of-the-art coal facilities, technology vendors,  
16          coal transportation workers and operators, or mining  
17          equipment vendors.

18          (9) Manufacturing industry, including work as  
19          operations technicians, operations and design in ad-  
20          ditive manufacturing, 3-D printing, and advanced  
21          composites, industrial energy efficiency management  
22          systems, including power electronics, and other inno-  
23          vative technologies.

24          (10) Chemical manufacturing industry, includ-  
25          ing work in construction (such as welders, pipe-

1 fitters, and tool and die makers) or as instrument  
2 and electrical technicians, machinists, chemical proc-  
3 ess operators, chemical engineers, quality and safety  
4 professionals, and reliability engineers.

5 (j) ENROLLMENT IN TRAINING AND APPRENTICE-  
6 SHIP PROGRAMS.—In carrying out the program estab-  
7 lished under subsection (a), the Secretary shall work with  
8 industry, organized labor, and community-based workforce  
9 organizations to help identify students and other can-  
10 didates, including from underrepresented communities  
11 such as minorities, women, and veterans, to enroll into  
12 training and apprenticeship programs for energy and  
13 manufacturing-related jobs.

14 **TITLE III—ENERGY SECURITY**  
15 **AND DIPLOMACY**

16 **SEC. 3101. SENSE OF CONGRESS.**

17 Congress finds the following:

18 (1) North America’s energy revolution has sig-  
19 nificantly enhanced energy security in the United  
20 States, and fundamentally changed the Nation’s en-  
21 ergy future from that of scarcity to abundance.

22 (2) North America’s energy abundance has in-  
23 creased global energy supplies and reduced the price  
24 of energy for consumers in the United States and  
25 abroad.

1           (3) Allies and trading partners of the United  
2 States, including in Europe and Asia, are seeking  
3 stable and affordable energy supplies from North  
4 America to enhance their energy security.

5           (4) The United States has an opportunity to  
6 improve its energy security and promote greater sta-  
7 bility and affordability of energy supplies for its al-  
8 lies and trading partners through a more integrated,  
9 secure, and competitive North American energy sys-  
10 tem.

11           (5) The United States also has an opportunity  
12 to promote such objectives by supporting the free  
13 flow of energy commodities and more open, trans-  
14 parent, and competitive global energy markets, and  
15 through greater Federal agency coordination relating  
16 to regulations or agency actions that significantly af-  
17 fect the supply, distribution, or use of energy.

18 **SEC. 3102. ENERGY SECURITY VALUATION.**

19           (a) ESTABLISHMENT OF ENERGY SECURITY VALU-  
20 ATION METHODS.—Not later than one year after the date  
21 of enactment of this Act, the Secretary of Energy shall  
22 develop and transmit, after public notice and comment,  
23 to the Committee on Energy and Commerce of the House  
24 of Representatives and the Committee on Energy and  
25 Natural Resources of the Senate a report that develops

1 recommended United States energy security valuation  
2 methods. In developing the report, the Secretary may con-  
3 sider the recommendations of the Administration's Quad-  
4 rennial Energy Review released on April 21, 2015. The  
5 report shall—

6 (1) evaluate and define United States energy  
7 security to reflect modern domestic and global en-  
8 ergy markets and the collective needs of United  
9 States allies and partners;

10 (2) identify transparent and uniform or coordi-  
11 nated procedures and criteria to ensure that energy-  
12 related actions that significantly affect the supply,  
13 distribution, or use of energy are evaluated with re-  
14 spect to their potential impact on energy security,  
15 including their impact on—

16 (A) consumers and the economy;

17 (B) energy supply diversity and resiliency;

18 (C) well-functioning and competitive en-  
19 ergy markets;

20 (D) United States trade balance; and

21 (E) national security objectives; and

22 (3) include a recommended implementation  
23 strategy that identifies and aims to ensure that the  
24 procedures and criteria referred to in paragraph (2)  
25 are—

1 (A) evaluated consistently across the Fed-  
2 eral Government; and

3 (B) weighed appropriately and balanced  
4 with environmental considerations required by  
5 Federal law.

6 (b) PARTICIPATION.—In developing the report re-  
7 ferred to in subsection (a), the Secretary may consult with  
8 relevant Federal, State, private sector, and international  
9 participants, as appropriate and consistent with applicable  
10 law.

11 **SEC. 3103. NORTH AMERICAN ENERGY SECURITY PLAN.**

12 (a) REQUIREMENT.—Not later than one year after  
13 the date of enactment of this Act, the Secretary of Energy  
14 shall develop and transmit to the Committee on Energy  
15 and Commerce and the Committee on Foreign Affairs of  
16 the House of Representatives and the Committee on En-  
17 ergy and Natural Resources and the Committee on For-  
18 eign Relations of the Senate the plan described in sub-  
19 section (b).

20 (b) PURPOSE.—The plan referred to in subsection (a)  
21 shall include—

22 (1) a recommended framework and implementa-  
23 tion strategy to—

24 (A) improve planning and coordination  
25 with Canada and Mexico to enhance energy in-

1           tegration, strengthen North American energy  
2           security, and promote efficiencies in the explo-  
3           ration, production, storage, supply, distribution,  
4           marketing, pricing, and regulation of North  
5           American energy resources; and

6           (B) address—

7           (i) North American energy public  
8           data, statistics, and mapping collaboration;

9           (ii) responsible and sustainable best  
10          practices for the development of unconven-  
11          tional oil and natural gas; and

12          (iii) modern, resilient energy infra-  
13          structure for North America, including  
14          physical infrastructure as well as institu-  
15          tional infrastructure such as policies, regu-  
16          lations, and practices relating to energy de-  
17          velopment; and

18          (2) a recommended framework and implementa-  
19          tion strategy to improve collaboration with Carib-  
20          bean and Central American partners on energy secu-  
21          rity, including actions to support—

22                (A) more open, transparent, and competi-  
23                tive energy markets;

24                (B) regulatory capacity building;

1 (C) improvements to energy transmission  
2 and storage; and

3 (D) improvements to the performance of  
4 energy infrastructure and efficiency.

5 (c) PARTICIPATION.—In developing the plan referred  
6 to in subsection (a), the Secretary of Energy may consult  
7 with other Federal, State, private sector, and international  
8 participants, as appropriate and consistent with applicable  
9 law.

10 **SEC. 3104. COLLECTIVE ENERGY SECURITY.**

11 (a) ENERGY SECURITY FORUMS.—Not later than one  
12 year after date of enactment of this Act, the Secretary  
13 of Energy, in collaboration with the Secretary of State,  
14 shall convene not less than 2 forums to promote the collec-  
15 tive energy security of the United States and its allies and  
16 trading partners. The forums shall include participation  
17 by the Secretary of Energy and the Secretary of State.  
18 In addition, an invitation shall be extended to—

19 (1) appropriate representatives of foreign gov-  
20 ernments that are allies or trading partners of the  
21 United States; and

22 (2) independent experts and industry represent-  
23 atives.

24 (b) REQUIREMENTS.—The forums shall—

1           (1) consist of at least one Trans-Atlantic and  
2           one Trans-Pacific energy security forum;

3           (2) be designed to foster dialogue among gov-  
4           ernment officials, independent experts, and industry  
5           representatives regarding—

6                   (A) the current state of global energy mar-  
7                   kets;

8                   (B) trade and investment issues relevant to  
9                   energy; and

10                   (C) barriers to more open, competitive, and  
11                   transparent energy markets; and

12           (3) be recorded and made publically available  
13           on the Department of Energy's website, including,  
14           not later than 30 days after each forum, publication  
15           on the website any significant outcomes, including  
16           any memorandums of understanding, made among  
17           the participants.

18           (c) NOTIFICATION.—At least 30 days before each of  
19           the forums referred to in subsection (a), the Secretary of  
20           Energy shall send a notification regarding the forum to—

21                   (1) the chair and the ranking minority member  
22                   of the Committee on Energy and Commerce and the  
23                   Committee on Foreign Affairs of the House of Rep-  
24                   resentatives; and

1           (2) the chair and ranking minority member of  
2           the Committee on Energy and Natural Resources  
3           and the Committee on Foreign Relations of the Sen-  
4           ate.

5 **SEC. 3105. STRATEGIC PETROLEUM RESERVE MISSION**  
6                                   **READINESS PLAN.**

7           Not later than 180 days after date of enactment of  
8           this Act, the Secretary of Energy shall conduct a long-  
9           range strategic review of the Strategic Petroleum Reserve  
10          and develop and transmit to Congress a plan that includes  
11          an analysis and implementation schedule that—

12                   (1) specifies near-term and long-term roles of  
13                   the Strategic Petroleum Reserve relative to United  
14                   States energy security and economic goals and objec-  
15                   tives;

16                   (2) describes existing legal authorities gov-  
17                   erning the policies, configuration, and capabilities of  
18                   the Strategic Petroleum Reserve;

19                   (3) identifies Strategic Petroleum Reserve con-  
20                   figuration and performance capabilities and rec-  
21                   ommends an action plan to achieve the optimal—

22                                   (A) capacity, location, and composition of  
23                   petroleum products in the Reserve; and

24                                   (B) storage and distributional capabilities;

25                   and

1 (4) estimates the resources required to attain  
2 and maintain the Strategic Petroleum Reserve’s  
3 long-term sustainability and operational effective-  
4 ness.

5 **TITLE IV—ENERGY EFFICIENCY**  
6 **AND ACCOUNTABILITY**

7 **Subtitle A—Energy Efficiency**

8 **CHAPTER 1—FEDERAL AGENCY ENERGY**  
9 **EFFICIENCY**

10 **SEC. 4111. ENERGY-EFFICIENT AND ENERGY-SAVING IN-**  
11 **FORMATION TECHNOLOGIES.**

12 (a) AMENDMENT.—Subtitle C of title V of the En-  
13 ergy Independence and Security Act of 2007 (Public Law  
14 110–140; 121 Stat. 1661) is amended by adding at the  
15 end the following:

16 **“SEC. 530. ENERGY-EFFICIENT AND ENERGY-SAVING INFOR-**  
17 **MATION TECHNOLOGIES.**

18 “(a) DEFINITIONS.—In this section:

19 “(1) DIRECTOR.—The term ‘Director’ means  
20 the Director of the Office of Management and Budg-  
21 et.

22 “(2) INFORMATION TECHNOLOGY.—The term  
23 ‘information technology’ has the meaning given that  
24 term in section 11101 of title 40, United States  
25 Code.

1           “(b) DEVELOPMENT OF IMPLEMENTATION STRAT-  
2 EGY.—Not later than 1 year after the date of enactment  
3 of this section, each Federal agency shall coordinate with  
4 the Director, the Secretary, and the Administrator of the  
5 Environmental Protection Agency to develop an implemen-  
6 tation strategy (that includes best practices and measure-  
7 ment and verification techniques) for the maintenance,  
8 purchase, and use by the Federal agency of energy-effi-  
9 cient and energy-saving information technologies, taking  
10 into consideration the performance goals established under  
11 subsection (d).

12           “(c) ADMINISTRATION.—In developing an implemen-  
13 tation strategy under subsection (b), each Federal agency  
14 shall consider—

15                   “(1) advanced metering infrastructure;

16                   “(2) energy-efficient data center strategies and  
17 methods of increasing asset and infrastructure utili-  
18 zation;

19                   “(3) advanced power management tools;

20                   “(4) building information modeling, including  
21 building energy management;

22                   “(5) secure telework and travel substitution  
23 tools; and

1           “(6) mechanisms to ensure that the agency re-  
2           alizes the energy cost savings brought about through  
3           increased efficiency and utilization.

4           “(d) PERFORMANCE GOALS.—

5           “(1) IN GENERAL.—Not later than 180 days  
6           after the date of enactment of this section, the Di-  
7           rector, in consultation with the Secretary, shall es-  
8           tablish performance goals for evaluating the efforts  
9           of Federal agencies in improving the maintenance,  
10          purchase, and use of energy-efficient and energy-sav-  
11          ing information technology.

12          “(2) BEST PRACTICES.—The Chief Information  
13          Officers Council established under section 3603 of  
14          title 44, United States Code, shall recommend best  
15          practices for the attainment of the performance  
16          goals, which shall include Federal agency consider-  
17          ation of, to the extent applicable by law, the use  
18          of—

19                  “(A) energy savings performance con-  
20                  tracting; and

21                  “(B) utility energy services contracting.

22          “(e) REPORTS.—

23                  “(1) AGENCY REPORTS.—Each Federal agency  
24                  shall include in the report of the agency under sec-

1       tion 527 a description of the efforts and results of  
2       the agency under this section.

3               “(2) OMB GOVERNMENT EFFICIENCY REPORTS  
4       AND SCORECARDS.—Effective beginning not later  
5       than October 1, 2017, the Director shall include in  
6       the annual report and scorecard of the Director re-  
7       quired under section 528 a description of the efforts  
8       and results of Federal agencies under this section.”.

9       (b) CONFORMING AMENDMENT.—The table of con-  
10      tents for the Energy Independence and Security Act of  
11      2007 is amended by adding after the item relating to sec-  
12      tion 529 the following:

    “Sec. 530. Energy-efficient and energy-saving information technologies.”.

13      **SEC. 4112. ENERGY EFFICIENT DATA CENTERS.**

14      Section 453 of the Energy Independence and Security  
15      Act of 2007 (42 U.S.C. 17112) is amended—

16              (1) in subsection (b)(2)(D)(iv), by striking “de-  
17      termined by the organization” and inserting “pro-  
18      posed by the stakeholders”;

19              (2) by striking subsection (b)(3); and

20              (3) by striking subsections (e) through (g) and  
21      inserting the following:

22      “(c) STAKEHOLDER INVOLVEMENT.—The Secretary  
23      and the Administrator shall carry out subsection (b) in  
24      collaboration with information technology industry and  
25      other key stakeholders, with the goal of producing results

1 that accurately reflect the most relevant and useful infor-  
2 mation available. In such collaboration, the Secretary and  
3 the Administrator shall pay particular attention to organi-  
4 zations that—

5 “(1) have members with expertise in energy ef-  
6 ficiency and in the development, operation, and  
7 functionality of data centers, information technology  
8 equipment, and software, such as representatives of  
9 hardware manufacturers, data center operators, and  
10 facility managers;

11 “(2) obtain and address input from Department  
12 of Energy National Laboratories or any college, uni-  
13 versity, research institution, industry association,  
14 company, or public interest group with applicable ex-  
15 pertise;

16 “(3) follow—

17 “(A) commonly accepted procedures for  
18 the development of specifications; and

19 “(B) accredited standards development  
20 processes; and

21 “(4) have a mission to promote energy effi-  
22 ciency for data centers and information technology.

23 “(d) MEASUREMENTS AND SPECIFICATIONS.—The  
24 Secretary and the Administrator shall consider and assess  
25 the adequacy of the specifications, measurements, best

1 practices, and benchmarks described in subsection (b) for  
2 use by the Federal Energy Management Program, the En-  
3 ergy Star Program, and other efficiency programs of the  
4 Department of Energy or the Environmental Protection  
5 Agency.

6 “(e) STUDY.—The Secretary, in collaboration with  
7 the Administrator, shall, not later than 18 months after  
8 the date of enactment of the [\_\_\_\_\_ Act of  
9 2015], make available to the public an update to the Re-  
10 port to Congress on Server and Data Center Energy Effi-  
11 ciency published on August 2, 2007, under section 1 of  
12 Public Law 109–431 (120 Stat. 2920), that provides—

13 “(1) a comparison and gap analysis of the esti-  
14 mates and projections contained in the original re-  
15 port with new data regarding the period from 2008  
16 through 2015;

17 “(2) an analysis considering the impact of in-  
18 formation technologies, including virtualization and  
19 cloud computing, in the public and private sectors;

20 “(3) an evaluation of the impact of the com-  
21 bination of cloud platforms, mobile devices, social  
22 media, and big data on data center energy usage;

23 “(4) an evaluation of water usage in data cen-  
24 ters and recommendations for reductions in such  
25 water usage; and

1           “(5) updated projections and recommendations  
2           for best practices through fiscal year 2020.

3           “(f) DATA CENTER ENERGY PRACTITIONER PRO-  
4 GRAM.—The Secretary, in collaboration with key stake-  
5 holders and the Director of the Office of Management and  
6 Budget, shall maintain a data center energy practitioner  
7 program that leads to the certification of energy practi-  
8 tioners qualified to evaluate the energy usage and effi-  
9 ciency opportunities in Federal data centers. Each Federal  
10 agency shall consider having the data centers of the agen-  
11 cy evaluated every 4 years, in accordance with section  
12 543(f) of the National Energy Conservation Policy Act (42  
13 U.S.C. 8253), by energy practitioners certified pursuant  
14 to such program.

15           “(g) OPEN DATA INITIATIVE.—The Secretary, in col-  
16 laboration with key stakeholders and the Director of the  
17 Office of Management and Budget, shall establish an open  
18 data initiative for Federal data center energy usage data,  
19 with the purpose of making such data available and acces-  
20 sible in a manner that encourages further data center in-  
21 novation, optimization, and consolidation. In establishing  
22 the initiative, the Secretary shall consider the use of the  
23 online Data Center Maturity Model.

24           “(h) INTERNATIONAL SPECIFICATIONS AND  
25 METRICS.—The Secretary, in collaboration with key

1 stakeholders, shall actively participate in efforts to har-  
2 monize global specifications and metrics for data center  
3 energy and water efficiency.

4 “(i) DATA CENTER UTILIZATION METRIC.—The Sec-  
5 retary, in collaboration with key stakeholders, shall facili-  
6 tate the development of an efficiency metric that measures  
7 the energy efficiency of a data center (including equipment  
8 and facilities).

9 “(j) PROTECTION OF PROPRIETARY INFORMATION.—  
10 The Secretary and the Administrator shall not disclose  
11 any proprietary information or trade secrets provided by  
12 any individual or company for the purposes of carrying  
13 out this section or the programs and initiatives established  
14 under this section.”.

15 **SEC. 4113. REPORT ON ENERGY AND WATER SAVINGS PO-**  
16 **TENTIAL FROM THERMAL INSULATION.**

17 (a) REPORT.—Not later than 1 year after the date  
18 of enactment of this Act, the Secretary of Energy, in con-  
19 sultation with appropriate Federal agencies and relevant  
20 stakeholders, shall submit to the Committee on Energy  
21 and Natural Resources of the Senate and the Committee  
22 on Energy and Commerce of the House of Representatives  
23 a report on the impact of thermal insulation on both en-  
24 ergy and water use systems for potable hot and chilled

1 water in Federal buildings, and the return on investment  
2 of installing such insulation.

3 (b) CONTENTS.—The report shall include—

4 (1) an analysis based on the cost of municipal  
5 or regional water for delivered water and the avoided  
6 cost of new water; and

7 (2) a summary of energy and water savings, in-  
8 cluding short-term and long-term (20 years) projec-  
9 tions of such savings.

10 **SEC. 4114. FEDERAL PURCHASE REQUIREMENT.**

11 Section 203(b) of the Energy Policy Act of 2005 (42  
12 U.S.C. 15852(b)) is amended by striking paragraph (2)  
13 and inserting the following:

14 “(2) RENEWABLE ENERGY.—The term ‘renew-  
15 able energy’ means electric energy, or thermal en-  
16 ergy if resulting from a thermal energy project  
17 placed in service after December 31, 2014, gen-  
18 erated from, or avoided by, solar, wind, biomass,  
19 landfill gas, ocean (including tidal, wave, current,  
20 and thermal), geothermal, municipal solid waste  
21 (other than commonly recycled paper that is seg-  
22 regated from solid waste), qualified waste heat re-  
23 source, or new hydroelectric generation capacity  
24 achieved from increased efficiency or additions of  
25 new capacity at an existing hydroelectric project.

1           “(3) QUALIFIED WASTE HEAT RESOURCE.—The  
2           term ‘qualified waste heat resource’ means—

3                   “(A) exhaust heat or flared gas from any  
4                   industrial process;

5                   “(B) waste gas or industrial tail gas that  
6                   would otherwise be flared, incinerated, or vent-  
7                   ed;

8                   “(C) a pressure drop in any gas for an in-  
9                   dustrial or commercial process; or

10                   “(D) such other forms of waste heat as the  
11                   Secretary determines appropriate.”.

12                   **CHAPTER 2—ENERGY EFFICIENT**  
13                   **TECHNOLOGY AND MANUFACTURING**

14                   **SEC. 4121. INCLUSION OF SMART GRID CAPABILITY ON EN-**  
15                   **ERGY GUIDE LABELS.**

16                   Section 324(a)(2) of the Energy Policy and Conserva-  
17                   tion Act (42 U.S.C. 6294(a)(2)) is amended by adding the  
18                   following at the end:

19                           “(J)(i) Not later than 1 year after the date  
20                           of enactment of this subparagraph, the Com-  
21                           mission shall initiate a rulemaking to consider  
22                           making a special note in a prominent manner  
23                           on any Energy Guide label for any product that  
24                           includes Smart Grid capability that—

1 “(I) Smart Grid capability is a fea-  
2 ture of that product;

3 “(II) the use and value of that feature  
4 depend on the Smart Grid capability of the  
5 utility system in which the product is in-  
6 stalled and the active utilization of that  
7 feature by the customer; and

8 “(III) on a utility system with Smart  
9 Grid capability, the use of the product’s  
10 Smart Grid capability could reduce the  
11 customer’s cost of the product’s annual op-  
12 eration as a result of the incremental en-  
13 ergy and electricity cost savings that would  
14 result from the customer taking full advan-  
15 tage of such Smart Grid capability.

16 “(ii) Not later than 3 years after the date  
17 of enactment of this subparagraph, the Com-  
18 mission shall complete the rulemaking initiated  
19 under clause (i).”.

20 **SEC. 4122. VOLUNTARY VERIFICATION PROGRAMS FOR AIR**  
21 **CONDITIONING, FURNACE, BOILER, HEAT**  
22 **PUMP, AND WATER HEATER PRODUCTS** 

23 Section 326(b) of the Energy Policy and Conserva-  
24 tion Act (42 U.S.C. 6296(b)) is amended by adding at  
25 the end the following:

1           “(6) VOLUNTARY VERIFICATION PROGRAMS FOR AIR  
2     CONDITIONING, FURNACE, BOILER, HEAT PUMP, AND  
3     WATER HEATER PRODUCTS.—

4           “(A) RELIANCE ON VOLUNTARY PROGRAMS.—

5     For the purpose of verifying compliance with energy  
6     conservation standards and Energy Star specifica-  
7     tions established under sections 324A, 325, and 342  
8     for covered products described in paragraphs (3),  
9     (4), (5), (9), and (11) of section 322(a) and covered  
10    equipment described in subparagraphs (B), (C), (D),  
11    (F), (I), (J), and (K) of section 340(1), the Sec-  
12    retary and the Administrator of the Environmental  
13    Protection Agency shall rely on testing conducted by   
14    recognized voluntary verification programs that are  
15    recognized by the Secretary in accordance with sub-  
16    paragraph (B).

17           “(B) RECOGNITION OF VOLUNTARY  
18    VERIFICATION PROGRAMS.— 

19           “(i) IN GENERAL.—Not later than 180  
20    days after the date of enactment of this para-  
21    graph, the Secretary shall initiate a negotiated  
22    rulemaking in accordance with subchapter III  
23    of chapter 5 of title 5, United States Code  
24    (commonly known as the ‘Negotiated Rule-  
25    making Act of 1990’) to develop criteria that

1           have consensus support for achieving recogni-  
2           tion by the Secretary as an approved voluntary  
3           verification program. Any subsequent amend-  
4           ment to such criteria may be made only pursu-  
5           ant to a subsequent negotiated rulemaking in  
6           accordance with subchapter III of chapter 5 of  
7           title 5, United States Code.

8                   “(ii) MINIMUM REQUIREMENTS.—The cri-  
9           teria developed under clause (i) shall, at a min-  
10          imum, ensure that a voluntary verification pro-  
11          gram—

12                           “(I) is nationally recognized;

13                           “(II) is operated by a third party and  
14          not directly operated by a program partici-  
15          pant;

16                           “(III) satisfies any applicable ele-  
17          ments of—

18                                   “(aa) International Organization  
19          for Standardization standard num-  
20          bered 17025; and

21                                   “(bb) any other relevant Inter-  
22          national Organization for Standard-  
23          ization standards identified and  
24          agreed to through the negotiated rule-  
25          making under clause (i);

1           “(IV) at least annually tests inde-  
2           pendently obtained products following the  
3           test procedures established under this title  
4           to verify the certified rating of a represent-  
5           ative sample of products and equipment  
6           within the scope of the program;

7           “(V) maintains a publicly available  
8           list of all ratings of products subject to  
9           verification;

10          “(VI) requires the changing of the  
11          performance rating or removal of the prod-  
12          uct or equipment from the program if test-  
13          ing determines that the performance rating  
14          does not meet the levels the manufacturer  
15          has certified to the Secretary;

16          “(VII) requires new program partici-  
17          pants to substantiate ratings through test  
18          data generated in accordance with Depart-  
19          ment of Energy regulations;

20          “(VIII) allows for challenge testing of  
21          products and equipment within the scope  
22          of the program;

23          “(IX) requires program participants  
24          to disclose the performance rating of all  
25          covered products and equipment within the

1 scope of the program for the covered prod-  
2 uct or equipment;

3 “(X) provides to the Secretary—

4 “(aa) an annual report of all test  
5 results, the contents of which shall be  
6 determined through the negotiated  
7 rulemaking process under clause (i);  
8 and

9 “(bb) test reports, on the request  
10 of the Secretary or the Administrator  
11 of the Environmental Protection  
12 Agency, that note any instructions  
13 specified by the manufacturer or the  
14 representative of the manufacturer for  
15 the purpose of conducting the  
16 verification testing, to be exempted  
17 from disclosure under section   
18 552(b)(4) of title 5, United States  
19 Code; and

20 “(XI) satisfies any additional require-  
21 ments or standards that the Secretary and  
22 Administrator of the Environmental Pro-  
23 tection Agency shall establish consistent  
24 with this subparagraph.

1           “(iii) CESSATION OF RECOGNITION.—The  
2           Secretary may only ase recognition of a vol-  
3           untary verification program as an approved pro-  
4           gram described in subparagraph (A) upon a  
5           finding that the program is not meeting its obli-  
6           gations for compliance through program review  
7           criteria developed during the negotiated rule-  
8           making conducted under subparagraph (B).

9           “(C) ADMINISTRATION.—

10           “(i) IN GENERAL.—The Secretary and the  
11           Administrator of the Environmental Protection  
12           Agency shall not require—

13                   “(I) manufacturers to participate in a  
14                   recognized voluntary verification program  
15                   described in subparagraph (A); or 

16                   “(II) participating manufacturers to  
17                   provide information that has already been  
18                   provided to the Secretary or the Adminis-  
19                   trator.

20           “(ii) LIST OF COVERED PRODUCTS.—The  
21           Secretary or the Administrator of the Environ-  
22           mental Protection Agency may maintain a pub-  
23           licly available list of covered products and  
24           equipment that distinguishes between products  
25           that are and are not covered products and

1 equipment verified through a recognized vol-  
2 untary verification program described in sub-  
3 paragraph (A).

4 “(iii) PERIODIC VERIFICATION TESTING.—  
5 The Secretary—

6 “(I) shall not  subject products or  
7 equipment that have been verification test-  
8 ed under a recognized voluntary  
9 verification program described in subpara-  
10 graph (A) to periodic verification testing to  
11 verify the accuracy of the certified per-  
12 formance rating of the products or equip-  
13 ment; but

14 “(II) may require testing of products  
15 or equipment described in subclause (I)—

16 “(aa) if the testing is nec-  
17 essary— 

18 “(AA) to assess the overall  
19 performance of a voluntary  
20 verification program;

21 “(BB) to address specific  
22 performance issues;

23 “(CC) for use in updating  
24 test procedures and standards; or

1 “(DD) for other purposes  
2 consistent with this title; or

3 “(bb) if such testing is agreed to  
4 during the negotiated rulemaking con-  
5 ducted under subparagraph (B).

6 “(D) EFFECT ON OTHER AUTHORITY.—Noth-  
7 ing in this paragraph limits the authority of the Sec-  
8 retary or the Administrator of the Environmental  
9 Protection Agency to enforce compliance with any  
10 law.”.

11 **【SEC. 4123. FACILITATING CONSENSUS FURNACE STAND-**  
12 **ARDS.】**

13 **【(a) CONGRESSIONAL FINDINGS AND DECLARATION**  
14 **OF PURPOSE.—】**

15 **【(1) FINDINGS.—Congress finds that—】**

16 **【(A) acting pursuant to the requirements**  
17 **of section 325 of the Energy Policy and Con-**  
18 **servation Act (42 U.S.C. 6295), the Secretary**  
19 **of Energy is considering amending the energy**  
20 **conservation standards applicable to residential**  
21 **non-weatherized gas furnaces and mobile home**  
22 **gas furnaces;】**

23 **【(B) numerous stakeholders, representing**  
24 **manufacturers, distributors, and installers of**  
25 **residential non-weatherized gas furnaces and**

1 mobile home furnaces, natural gas utilities,  
2 home builders, multifamily property owners,  
3 and energy efficiency, environmental, and con-  
4 sumer advocates have begun negotiations in an  
5 attempt to agree on a consensus recommenda-  
6 tion to the Secretary on levels for such stand-  
7 ards that will meet the statutory criteria; and】

8 【(C) the stakeholders believe these nego-  
9 tiations are likely to result in a consensus rec-  
10 ommendation, but several of the stakeholders  
11 do not support suspending the current rule-  
12 making.】

13 【(2) PURPOSE.—It is the purpose of this sec-  
14 tion to provide the stakeholders described in para-  
15 graph (1) with an opportunity to continue negotia-  
16 tions for a limited time period to facilitate the pro-  
17 posal for adoption of standards that enjoy consensus  
18 support, while not delaying the current rulemaking  
19 except to the extent necessary to provide such oppor-  
20 tunity.】

21 【(b) OPPORTUNITY FOR A NEGOTIATED FURNACE  
22 STANDARD.—Section 325(f)(4) of the Energy Policy and  
23 Conservation Act (42 U.S.C. 6295(f)(4)) is amended by  
24 adding after subparagraph (D) the following:】

1           【“(E)(i) Unless the Secretary has  blished such a  
2 notice prior to the date of enactment of this Act, the Sec-  
3 retary shall publish, not later than October 31, 2015, a  
4 supplemental notice of proposed rulemaking or a notice  
5 of data availability updating the proposed rule entitled  
6 ‘Energy Conservation Program for Consumer Products:  
7 Energy Conservation Standards for Residential Furnaces’  
8 and published in the Federal Register on March 12, 2015  
9 (80 Fed. Reg. 13119), to provide notice and an oppor-  
10 tunity for comment on—】

11                   【“(I) dividing non-weatherized natural gas  
12 furnaces into two or more product classes with  
13 separate energy conservation standards based  
14 on capacity; and】

15                   【“(II) any other matters the Secretary de-  
16 termines appropriate.】

17           【“(ii) On receipt of a statement that is submitted on  
18 or before January 1, 2016, jointly by interested persons  
19 that are fairly representative of relevant points of view,  
20 that contains recommended standards for non-weatherized  
21 natural gas furnaces and mobile home gas furnaces that  
22 are consistent with the requirements of this part (except  
23 that the date on which such standards will apply may be  
24 earlier or later than the date required under this part),  
25 the Secretary shall evaluate the standards proposed in the

1 joint statement for consistency with the requirements of  
2 subsection (o), and shall publish notice of the potential  
3 adoption of the standards proposed in the joint statement,  
4 modified as necessary to ensure consistency with sub-  
5 section (o). The Secretary shall solicit public comment for  
6 a period of at least 30 days with respect to such notice.】

7 【“(iii) Not later than July 31, 2016, but not before  
8 July 1, 2016, the Secretary shall publish a final rule con-  
9 taining a determination of whether the standards for non-  
10 weatherized natural gas furnaces and mobile home gas  
11 furnaces should be amended. Such rule shall contain any  
12 such amendments to the standards.”.】

13 **SEC. 4124. FUTURE OF INDUSTRY PROGRAM.**

14 (a) IN GENERAL.—Section 452 of the Energy Inde-  
15 pendence and Security Act of 2007 (42 U.S.C. 17111) is  
16 amended by striking the section heading and inserting the  
17 following: “**FUTURE OF INDUSTRY PROGRAM**”.

18 (b) DEFINITION OF ENERGY SERVICE PROVIDER.—  
19 Section 452(a) of the Energy Independence and Security  
20 Act of 2007 (42 U.S.C. 17111(a)) is amended—

21 (1) by redesignating paragraphs (3) through  
22 (5) as paragraphs (4) through (6), respectively; and  
23 (2) by inserting after paragraph (2):

24 “(3) ENERGY SERVICE PROVIDER.—The term  
25 ‘energy service provider’ means any business pro-

1       viding technology or services to improve the energy  
2       efficiency, water efficiency, power factor, or load  
3       management of a manufacturing site or other indus-  
4       trial process in an energy-intensive industry, or any  
5       utility operating under a utility energy service  
6       project.”.

7       (c) INDUSTRIAL RESEARCH AND ASSESSMENT CEN-  
8       TERS.—Section 452(e) of the Energy Independence and  
9       Security Act of 2007 (42 U.S.C. 17111(e)) is amended—

10           (1) by redesignating paragraphs (1) through  
11           (5) as subparagraphs (A) through (E), respectively,  
12           and indenting appropriately;

13           (2) by striking “The Secretary” and inserting  
14           the following:

15           “(1) IN GENERAL.—The Secretary”;

16           (3) in subparagraph (A) (as redesignated by  
17           paragraph (1)), by inserting before the semicolon at  
18           the end the following: “, including assessments of  
19           sustainable manufacturing goals and the implemen-  
20           tation of information technology advancements for  
21           supply chain analysis, logistics, system monitoring,  
22           industrial and manufacturing processes, and other  
23           purposes”; and

24           (4) by adding at the end the following:

1           “(2) COORDINATION.—To increase the value  
2           and capabilities of the industrial research and as-  
3           sessment centers, the centers shall—

4                   “(A) coordinate with Manufacturing Ex-  
5                   tension Partnership Centers of the National In-  
6                   stitute of Standards and Technology;

7                   “(B) coordinate with the Building Tech-  
8                   nologies Office of the Department of Energy to  
9                   provide building assessment services to manu-  
10                  facturers;

11                  “(C) increase partnerships with the Na-  
12                  tional Laboratories of the Department of En-  
13                  ergy to leverage the expertise and technologies  
14                  of the National Laboratories for national indus-  
15                  trial and manufacturing needs; and

16                  “(D) increase partnerships with energy  
17                  service providers and technology providers to le-  
18                  verage private sector expertise and accelerate  
19                  deployment of new and existing technologies  
20                  and processes for energy efficiency, power fac-  
21                  tor, and load management.

22           “(3) OUTREACH.—The Secretary shall provide  
23           funding for—

24                   “(A) outreach activities by the industrial  
25                   research and assessment centers to inform

1 small and medium-sized manufacturers of the  
2 information, technologies, and services avail-  
3 able; and

4 “(B) coordination activities by each indus-  
5 trial research and assessment center to leverage  
6 efforts with—

7 “(i) Federal and State efforts;

8 “(ii) the efforts of utilities and energy  
9 service providers;

10 “(iii) the efforts of regional energy ef-  
11 ficiency organizations; and

12 “(iv) the efforts of other industrial re-  
13 search and assessment centers.

14 “(4) SMALL BUSINESS LOANS.—The Adminis-  
15 trator of the Small Business Administration shall, to  
16 the maximum extent practicable, expedite consider-  
17 ation of applications from eligible small business  
18 concerns for loans under the Small Business Act (15  
19 U.S.C. 631 et seq.) to implement recommendations  
20 of industrial research and assessment centers estab-  
21 lished under paragraph (1).”.

22 (d) CONFORMING AMENDMENT.—The item relating  
23 to section 452 in the table of contents for the Energy  
24 Independence and Security Act of 2007 is amended to  
25 read as follows:

“Sec. 452. Future of Industry program.”.

1       **CHAPTER 3—ENERGY PERFORMANCE**  
2                                   **CONTRACTING**

3       **SEC. 4131. USE OF ENERGY AND WATER EFFICIENCY MEAS-**  
4                                   **URES IN FEDERAL BUILDINGS.**

5           (a) **REPORTS.**—Section 548(b) of the National En-  
6       ergy Conservation Policy Act (42 U.S.C. 8258(b)) is  
7       amended—

8           (1) in paragraph (3), by striking “and” at the  
9       end;

10          (2) in paragraph (4), by striking the period at  
11       the end and inserting “; and”; and

12          (3) by adding at the end the following new  
13       paragraph:

14           “(5) the status of each agency’s energy savings  
15       performance contracts and utility energy service con-  
16       tracts, the investment value of such contracts, the  
17       guaranteed energy savings for the previous year as  
18       compared to the energy savings as measured and  
19       verified for the previous year, the plan for entering  
20       into such contracts in the coming year, and informa-  
21       tion explaining why any previously submitted plans  
22       for such contracts were not implemented.”.

23          (b) **FEDERAL ENERGY MANAGEMENT DEFINI-**  
24       **TIONS.**—Section 551(4) of the National Energy Conserva-  
25       tion Policy Act (42 U.S.C. 8259(4)) is amended by insert-

1 ing “energy consuming devices and required support  
2 structures that contribute to energy or water utility cost  
3 savings,” after “maintenance efficiencies,”.

4 (c) **AUTHORITY TO ENTER INTO CONTRACTS.**—Sec-  
5 tion 801(a)(2)(F) of the National Energy Conservation  
6 Policy Act (42 U.S.C. 8287(a)(2)(F)) is amended—

7 (1) in clause (i), by striking “or” at the end;

8 (2) in clause (ii), by striking the period at the  
9 end and inserting “; or”; and

10 (3) by adding at the end the following new  
11 clause:

12 “(iii) limit the recognition of oper-  
13 ation and maintenance savings associated  
14 with systems modernized or replaced with  
15 the implementation of energy conservation  
16 measures, water conservation measures, or  
17 any series of energy conservation measures  
18 and water conservation measures.”.

19 (d) **MISCELLANEOUS AUTHORITY.**—Section  
20 801(a)(2) of the National Energy Conservation Policy Act  
21 (42 U.S.C. 8287(a)) is amended by adding at the end the  
22 following:

23 “(H) **MISCELLANEOUS AUTHORITY.**—Not-  
24 withstanding any other provision of law, a Fed-  
25 eral agency may sell or transfer energy savings

1 described in subparagraph (E) or (F) of section  
2 804(2) and apply the proceeds of such sale or  
3 transfer to fund a contract under this title.”.

4 (e) PAYMENT OF COSTS.—Section 802 of the Na-  
5 tional Energy Conservation Policy Act (42 U.S.C. 8287a)  
6 is amended by striking “(and related operation and main-  
7 tenance expenses)” and inserting “, including related op-  
8 erations and maintenance expenses”.

9 (f) ENERGY SAVINGS PERFORMANCE CONTRACTS  
10 DEFINITIONS.—Section 804(2) of the National Energy  
11 Conservation Policy Act (42 U.S.C. 8287c(2)) is amend-  
12 ed—

13 (1) in subparagraph (A), by striking “federally  
14 owned building or buildings or other federally owned  
15 facilities” and inserting “Federal building (as de-  
16 fined in section 551 (42 U.S.C. 8259))” each place  
17 it appears;

18 (2) in subparagraph (C), by striking “; and”  
19 and inserting a semicolon;

20 (3) in subparagraph (D), by striking the period  
21 at the end and inserting a semicolon; and

22 (4) by adding at the end the following new sub-  
23 paragraphs:

24 “(E) the use, sale, or transfer of energy in-  
25 centives, rebates, or credits (including renew-

1           able energy credits) from Federal, State, or  
2           local governments or utilities; and

3                   “(F) any revenue generated from a reduc-  
4           tion in energy or water use, more efficient  
5           waste recycling, or additional energy generated  
6           from more efficient equipment.”.

## 7           **CHAPTER 4—SCHOOL BUILDINGS**

### 8   **SEC. 4141. COORDINATION OF ENERGY RETROFITTING AS-** 9                   **SISTANCE FOR SCHOOLS.**

10          Section 392 of the Energy Policy and Conservation  
11   Act (42 U.S.C. 6371a) is amended by adding at the end  
12   the following:

13          “(e) COORDINATION OF ENERGY RETROFITTING AS-  
14   SISTANCE FOR SCHOOLS.—

15               “(1) DEFINITION OF SCHOOL.—Notwith-  
16   standing section 391(6), for the purposes of this  
17   subsection, the term ‘school’ means—

18                   “(A) an elementary school or secondary  
19   school (as defined in section 9101 of the Ele-  
20   mentary and Secondary Education Act of 1965  
21   (20 U.S.C. 7801));

22                   “(B) an institution of higher education (as  
23   defined in section 102(a) of the Higher Edu-  
24   cation Act of 1965 (20 U.S.C. 1002(a)));

1           “(C) a school of the defense dependents’  
2           education system under the Defense Depend-  
3           ents’ Education Act of 1978 (20 U.S.C. 921 et  
4           seq.) or established under section 2164 of title  
5           10, United States Code;

6           “(D) a school operated by the Bureau of  
7           Indian Affairs;

8           “(E) a tribally controlled school (as de-  
9           fined in section 5212 of the Tribally Controlled  
10          Schools Act of 1988 (25 U.S.C. 2511)); and

11          “(F) a Tribal College or University (as de-  
12          fined in section 316(b) of the Higher Education  
13          Act of 1965 (20 U.S.C. 1059c(b))).

14          “(2) ESTABLISHMENT OF CLEARINGHOUSE.—  
15          The Secretary, acting through the Office of Energy  
16          Efficiency and Renewable Energy, shall establish a  
17          clearinghouse to disseminate information regarding  
18          available Federal programs and financing mecha-  
19          nisms that may be used to help initiate, develop, and  
20          finance energy efficiency, distributed generation, and  
21          energy retrofitting projects for schools.

22          “(3) REQUIREMENTS.—In carrying out para-  
23          graph (2), the Secretary shall—

24                 “(A) consult with appropriate Federal  
25                 agencies to develop a list of Federal programs

1 and financing mechanisms that are, or may be,  
2 used for the purposes described in paragraph  
3 (2); and

4 “(B) coordinate with appropriate Federal  
5 agencies to develop a collaborative education  
6 and outreach effort to streamline communica-  
7 tions and promote available Federal programs  
8 and financing mechanisms described in sub-  
9 paragraph (A), which may include the develop-  
10 ment and maintenance of a single online re-  
11 source that includes contact information for rel-  
12 evant technical assistance in the Office of En-  
13 ergy Efficiency and Renewable Energy that  
14 States, local education agencies, and schools  
15 may use to effectively access and use such Fed-  
16 eral programs and financing mechanisms.”.

## 17 **Subtitle B—Accountability**

### 18 **CHAPTER 1—MARKET MANIPULATION,**

### 19 **ENFORCEMENT, AND COMPLIANCE**

#### 20 **SEC. 4211. FERC OFFICE OF COMPLIANCE ASSISTANCE AND**

#### 21 **PUBLIC PARTICIPATION.**

22 Section 319 of the Federal Power Act (16 U.S.C.  
23 825q–1) is amended to read as follows:

1 **“SEC. 319. OFFICE OF COMPLIANCE ASSISTANCE AND PUB-**  
2 **LIC PARTICIPATION.**

3 “(a) ESTABLISHMENT.—There is established within  
4 the Commission an Office of Compliance Assistance and  
5 Public Participation (referred to in this section as the ‘Of-  
6 fice’). The Office shall be headed by a Director.

7 “(b) DUTIES OF DIRECTOR.—

8 “(1) IN GENERAL.—The Director of the Office  
9 shall promote improved compliance with Commission  
10 rules and orders by—

11 “(A) making recommendations to the Com-  
12 mission regarding—

13 “(i) the protection of consumers;

14 “(ii) market integrity and support for  
15 the development of responsible market be-  
16 havior;

17 “(iii) the application of Commission  
18 rules and orders in a manner that ensures  
19 that—

20 “(I) rates and charges for, or in  
21 connection with, the transmission or  
22 sale of electric energy subject to the  
23 jurisdiction of the Commission shall  
24 be just and reasonable and not unduly  
25 discriminatory or preferential; and

1                   “(II) markets for such trans-  
2                   mission and sale of electric energy are  
3                   not impaired and consumers are not  
4                   damaged; and

5                   “(iv) the impact of existing and pro-  
6                   posed Commission rules and orders on  
7                   small entities, as defined in section 601 of  
8                   title 5, United States Code (commonly  
9                   known as the Regulatory Flexibility Act);

10                  “(B) providing entities subject to regula-  
11                  tion by the Commission the opportunity to ob-  
12                  tain timely guidance for compliance with Com-  
13                  mission rules and orders; and

14                  “(C) providing information to the Commis-  
15                  sion and Congress to inform policy with respect  
16                  to energy issues under the jurisdiction of the  
17                  Commission.

18                  “(2) REPORTS AND GUIDANCE.—The Director  
19                  shall, as the Director determines appropriate, issue  
20                  reports and guidance to the Commission and to enti-  
21                  ties subject to regulation by the Commission, regard-  
22                  ing market practices, proposing improvements in  
23                  Commission monitoring of market practices, and ad-  
24                  dressing potential improvements to both industry  
25                  and Commission practices.

1           “(3) OUTREACH.—The Director shall promote  
2 improved compliance with Commission rules and or-  
3 ders through outreach, publications, and, where ap-  
4 appropriate, direct communication with entities regu-  
5 lated by the Commission.”.

## 6           **CHAPTER 2—MARKET REFORMS**

### 7   **SEC. 4221. GAO STUDY ON WHOLESALE ELECTRICITY MAR-** 8           **KETS.**

9           (a) STUDY AND REPORT.—Not later than 1 year  
10 after the date of enactment of this Act, the Comptroller  
11 General shall submit to the Committee on Energy and  
12 Commerce of the House of Representatives and the Com-  
13 mittee on Energy and Natural Resources of the Senate  
14 a report describing the results of a study of whether and  
15 how the current market rules, practices, and structures  
16 of each regional transmission entity produce rates that are  
17 just and reasonable by—

18           (1) facilitating fuel diversity, the availability of  
19 generation resources during emergency and severe  
20 weather conditions, resource adequacy, and reli-  
21 ability, including the cost-effective retention and de-  
22 velopment of needed generation;

23           (2) promoting the equitable treatment of busi-  
24 ness models, including different utility types, the in-

1       tegration of diverse generation resources, and ad-  
2       vanced grid technologies;

3           (3) identifying and addressing regulatory bar-  
4       riers to entry, market-distorting incentives, and arti-  
5       ficial constraints on competition;

6           (4) providing transparency regarding dispatch  
7       decisions, including the need for out-of-market ac-  
8       tions and payments, and the accuracy of day-ahead  
9       unit commitments;

10          (5) facilitating the development of necessary  
11       natural gas pipeline and electric transmission infra-  
12       structure;

13          (6) ensuring fairness and transparency in gov-  
14       ernance structures and stakeholder processes, in-  
15       cluding meaningful participation by both voting and  
16       non-voting stakeholder representatives;

17          (7) ensuring the proper alignment of the energy  
18       and transmission markets by including both energy  
19       and financial transmission rights in the day-ahead  
20       markets;

21          (8) facilitating the ability of load-serving enti-  
22       ties to self-supply their service territory load;

23          (9) considering, as appropriate, State and local  
24       resource planning; and

1           (10) mitigating, to the extent practicable, the  
2           disruptive effects of tariff revisions on the economic  
3           decision-making of market participants.

4           (b) DEFINITIONS.—In this section:

5           (1) LOAD-SERVING ENTITY.—The term “load-  
6           serving entity” has the meaning given that term in  
7           section 217 of the Federal Power Act (16 U.S.C.  
8           824q).

9           (2) REGIONAL TRANSMISSION ENTITY.—The  
10          term “regional transmission entity” means a Re-  
11          gional Transmission Organization or an Independent  
12          System Operator, as such terms are defined in sec-  
13          tion 3 of the Federal Power Act (16 U.S.C. 796).
