		Requester:	Thomas A. Enslow

**SUBJECT: APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U338E) FOR APPROVAL OF ENERGY EFFICIENCY ROLLING PORTFOLIO BUSINESS PLAN AND RELATED MATTERS. CCE-DR01**

**QUESTION 27**

Have the IOU WE&T programs established a worker quality baseline for any specific energy efficiency measures or energy efficiency occupations (i.e. the percentage of workers installing specific energy efficiency measures determined to have the appropriate skills, training, and certifications)? If yes, please provide a copy of any studies, reports or data on which this baseline is estimated.

**ANSWER 27**

No, the IOU WE&T programs have not established a worker quality baseline *per se* for any specific energy efficiency measures or energy efficiency occupations. However, the General Conditions for Customer Energy Services contracts (a copy of which was provided in response to Question 6) requires contractors to employ personnel qualified to perform the work (at Section 2.5.2) and requires contractors to comply with all applicable federal, state, and local laws, rules, and regulations, and to obtain all applicable licenses and permits for the conduct of its business and the performance of work under each contract (at Section 10.2.) Some of these laws may relate to the training and skill of workers employed by PG&E's contractors.
