Question 37:

What dispute resolution process (if any) would be employed within the governance structure to resolve disagreements between PAs?

Response to Question 37:

The details of a dispute resolution process are still under consideration and the process will comply with the Decision¹. The IOUs shared an initial framework for a statewide governance structure in the jointly filed “Statewide Administrative Approach” as a part of the Business Plan application in January 2017. The IOUs continue to work collaboratively on the structure and anticipate having more details in place for statewide program implementation.

1. “The lead statewide administrator, once established and approved by the Commission, should be the final decisionmaker with respect to the statewide program, but should consult and [collaborate] with the other program administrators either through the CAEECC process or through several sector and/or program-level coordination venues hosted by the lead administrator,” D.16-08-019, COL 43
