**Attachments:** DRAFT Regulatory Reform Comments 5July2017\_v2 0\_Mthomas(003).docx

Charles,

Approved with edits. Not sure who wrote this, and for 12 pages there weren't too many typos, but there were still typos. For what the IOUs pay these consultants, they should be perfect.

Thanks!

**Subject:** Comment Letter to DOE

Dear Michelle,

I am seeking your approval for submitting this comment letter to DOE. CA IOUs prepared the attached comment letter in response to DOE's RFI. DOE is seeking inputs for implementing Executive Order 13771: achieve meaningful burden reduction while continuing to meet DOE's statutory responsibilities in accordance with the Energy Policy and Conservation Act of 1975.

We are providing some helpful ways to improve DOE's process; see attached.

Please let me know if you have any questions. The Team wants your approval by 7/12 or sooner. Thanks.

**Charles J. Kim, P.E.**

Sr. Engineer

Energy Codes and Standards
