Question 18:

Please provide a timeline for all utility implementation activities that will be outsourced to third-parties in the period January 1, 2017 to December 31, 2020?

Response to Question 18:

At this time, SCE cannot provide a timeline for which utility implementation activities will be outsourced to third parties from January 1, 2017 to December 31, 2020 because SCE will not know which implementation activities will be outsourced to third parties until it receives Commission's decision approving its Business Plan and executes its Solicitation for Innovation and selects winning proposals. SCE intends to bid out as much of the implementation of its EE Portfolio to third parties as is feasible.
