

Southern California Edison
SCE EE Business Plan A.17-01-013

DATA REQUEST SET A.17-01-013-CEE-SCE-002

To: CEE

Prepared by: Joni Key

Title: Project Manager

Dated: 05/18/2017

Question 45c:

Response to Data Request Question 22 states that “For contractors who participate in HVAC Commercial Quality Maintenance (QM) programs, applicable IOUs require skills standards and certification requirements in alignment with the recommendation, fulfilling the commitment outlined in the February 23, 2015 Advice Letter and PIP Addendum.”

This response does not indicate whether any *new* skill standards or certification requirements were adopted *in response* to the February 23, 2015 Advice Letter and PIP Addendum. In addition, this response refers only to “applicable IOUs” and does not indicate whether SCE adopted skills standards or certification requirements for any of its energy efficiency programs.

c. The February 23, 2015 Advice Letter references both HVAC Quality *Installation* and Quality *Maintenance* as programs that would initiate the adoption of skill certification requirements. Response to Question 18 only refers to requirements adopted for Quality Maintenance. Were skill certification requirements adopted for HVAC Quality Installation programs as a result of implementation of the February 23, 2015 Advice Letter and PIP Addendum? If the answer is yes, please identify the programs and the requirements and provide supporting documentation.

Response to Question 45c:

No. Since the February 23, 2015 AL and PIP Addendum filing to the time of this response, SCE does not have an HVAC Commercial Quality Installation (CQI) program for which any skills standards and/or certification requirements could be adopted.
