Subject: DOE RFI on "Reducing Regulation and Controlling Regulatory Costs"

This is an EXTERNAL EMAIL. Stop and think before clicking links or opening attachments.

Here is the DOE analogue to the EPA regulatory reduction RFI that was mentioned on our last call. I expect the CEC will file individual comments.

DOE is seeking comments and information from interested parties to assist DOE in identifying existing regulations, paperwork requirements and other regulatory obligations that can be modified or repealed, consistent with law, to achieve meaningful burden reduction while continuing to achieve the Department's statutory obligations. Written comments and information are requested on or before July 14, 2017.
