CA team- Is your plan for each of the MA PA's to send you their logos and signatures for you to assemble, or do you want us to work amongst ourselves to provide you with a single version with logos and signatures already included? And thanks for all your work so far.

All,

On behalf of Mary Anderson, I have attached for the updated version of the comment letter (in both tracked changes and clean). We highlighted a few areas of text regarding the number of customers the Energy Coalition serves, the logos, whether the Energy Coalition participates in ASRAC, and the signatories. Please let me know how you'd like to proceed in these areas and I will update the final version.

Let me know if you any further comments.

Thank you,
Erin

All- Please see attached for my comments which build off the previously sent versions. As a reminder, Mary has set a deadline of tomorrow COB for our comments on this.

I made the following edits to the document:

- Rearranged narrative to elevate one important section (EPCA safeguards) that, IMO, was previously a bit buried
 - In doing so, added section titles and supporting language to improve readability/flow
- Underscored key points in question response section
- Took care of a few grammatical/consistency/typo fixes (but thank you to Mary (Downes) and Margaret for taking care of most of these already).

This is pretty dense reading for sure. There is one thing that caught my attention and that was the comment that there should be some focus on water efficiency due to the severe droughts we have been experiencing. There is another angle that could be promoted here. Electric generation consumes tremendous amounts of energy in the country so it would seem we could quantify water savings being achieved already even from those appliances that don't have water consumption directly.
