

*Southern California Edison*  
**SCE EE Business Plan A.17-01-013**

**DATA REQUEST SET A.17-01-013-CEE-SCE-002**

**To:** CEE

**Prepared by:** Joni Key

**Title:** Project Manager

**Dated:** 05/18/2017

---

**Question 46b:**

Response to Data Request Question 28 states that the Business Plan presents the “IOUs’ overall approach to the DVC recommendations.”

b. Response to Data Request 28 that the approach in the Business Plan is consistent with the direction provided by the CAEECC process. Please describe the “direction” provided by the CAEECC process, identify who specifically provided this direction and state when and how this direction was provided. If you have documentation of this direction, please provide a copy of the document and indicate by page number where this direction was provided.

**Response to Question 46b:**

The WE&T Subcommittee framework and meeting schedule was determined and approved by the CAEECC facilitation team. The "direction" referenced in the Response to Data Request (DR) Question 28 was this framework of meetings and how these would be structured. SCE participated in discussions and presentations for stage 1, stage 2, draft business plan submission and response to stakeholder feedback via the CAEECC input tracker. As stated in the Response to DR Question 28, these meetings were noticed respectively to the EE, DR, and DG service lists and CAEECC. All interested stakeholders, including individuals representing CEE, attended some of these meetings, and were presented the IOU WE&T plans during the various phases of development. All IOU presentations and related materials can be found on the CAEECC website. [1]
