**Question 41:**

Please explain the utilities' agreed processes for regulatory reporting and compliance filings by all Lead PAs administering statewide programs.

**Response to Question 41:**

The utilities have not yet adopted an agreed upon process for regulatory reporting and compliance filings by Lead PAs administering statewide programs. However, the utilities expect that the Lead PA will follow existing filing procedures for regulatory reports and compliance filings with the Lead PA having overall responsibility for the documents and the non-lead PAs providing input and review. To the extent there is not consensus among the PAs on any regulatory document, the Lead PA will include in the regulatory document an explanation of any differences among the PAs.
