Question 034:

Have the IOU WE&T programs established a worker quality baseline for any specific energy efficiency measures or energy efficiency occupations (i.e. the percentage of workers installing specific energy efficiency measures determined to have the appropriate skills, training, and certifications)? If yes, please provide a copy of any studies, reports or data on which this baseline is estimated.

Response to Question 034:

The term "quality" is subjective, vague and ambiguous as used in the question. However, it is not in the WE&T Program's scope to establish certain levels of worker quality baselines for specific energy efficiency (EE) measures or EE occupations.
