**Question 031:**

In its comments on the draft Business Plans submitted during the CAEECC review, CEE recommended expressly identifying lost energy savings from poorly installed retrofits as a barrier to meeting each sector's energy efficiency goals. Please explain why the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan does not disclose this as a barrier to each sector's energy efficiency goals.

**Response to Question 031:**

In its Energy Efficiency (EE) Business Plan, SCE focused primarily on barriers that affect customer adoption of EE measures. The list of barriers in the Business Plan is not a comprehensive list of all possible barriers.
