

Southern California Edison
SCE EE Business Plan A.17-01-013

DATA REQUEST SET A.17-01-013-CEE-SCE-001

To: CEE
Prepared by:
Title:
Dated: 03/24/2017

Question 040f:

Does SCE intend to shift any incentive funds away from downstream programs to midstream and upstream programs during the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan? If yes, please respond to the following:

Under the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan, what is the percentage of energy efficiency funding allocated to (a) downstream programs; (b) midstream programs; and (c) upstream programs?

Response to Question 040f:

(f) SCE is not able to provide the percentage of proposed energy efficiency (EE) funding from its 2018-2025 EE Business Plan allocated to downstream, midstream, and upstream programs because the lowest level at which the proposed funding has been allocated is at the program level, but individual programs can include measures that are downstream, midstream, or upstream. The requested breakdown will be available when SCE files its annual EE budget advice letter in September 2017.
