Should we have Gary review?

Pat

CEC has their own letter. I am writing ours. I would like you, Mary, and Ed to have one last look it before sending outside the group. << File: PGE Furnaces_Comment_Letter_7-10-15_v3 gwp_TRC_mbh9.docx >>

This is current up to minute draft than includes input from Mary, Bijit, Farhad, Bill Pennington, Kristen Driskel, and I guess we can count Sue K. of SCG (although she has not shared with me... just AGA..just kidding). I want to read and edit it when I am fresh. I am hitting the road back to Davis in about an hour. Call if you have questions.

Marshall:

Are you developing two letters, one for CEC and one for PG&E? If so, when might you have something that I can share with our Corporate Affairs group.

Thank you.
