**SUBJECT: APPLICATION OF SOUTHERN CALIFORNIA EDISON COMPANY (U338E) FOR APPROVAL OF ENERGY EFFICIENCY ROLLING PORTFOLIO BUSINESS PLAN AND RELATED MATTERS. CCE-DR01**

**QUESTION 16**

Please list all PG&E upstream, midstream and downstream energy efficiency programs available over the past two years that impose training or skills standards, certification requirements, prevailing wage requirements, prequalification requirements, apprenticeship requirements, or other workforce quality requirements. For each program that contains such requirements, please provide a description of the program and the requirements.

**ANSWER 16**

Training or skills standards, certification requirements, prevailing wage requirements, prequalification requirements, apprenticeship requirements, and other workforce requirements are listed within the individual program manuals for each program. The program manuals can be found within the California Energy Data and Reporting System (CEDARS). To access the manuals:

1. Go to <https://cedars.sound-data.com/>
2. Select "Filings"
3. Within "Filings", select "Programs"
4. Scroll or Ctrl-F to find the specific program.
5. Select the Program.
6. Select "View" under "Program Manual"

For some programs, workforce requirements are not included solely within the Program Manual. For these programs, the relevant documents have been included as **attachments** to this response.
