Subject: RE: CA IOUs comment letter to DOE on Improving DOE's process

Thanks, Charles. On page 4, it says "it is increasing important for DOE..." I think it should be increasingly important for DOE...

Best wishes,
Dwayne

Subject: CA IOUs comment letter to DOE on Improving DOE's process

Dear Mr. Bolton,

CA IOUs prepared the attached comment letter in response to DOE's RFI (currently, we are circulating the attached for approvals). DOE is seeking inputs for implementing the Executive Order 13771: achieve meaningful regulation burden reduction while continuing to meet DOE's statutory responsibilities in accordance with the Energy Policy and Conservation Act of 1975.

We are providing some helpful ways to improve DOE's processes; see attached. We are also commending DOE for all great works, especially on energy conservation efforts.

I expect all CA IOUs will sign the attached document. The due date to the DOE is 7/14.

If you have any concerns or questions, would you please let me know?

Have a wonderful day!

Charles J. Kim, P.E.
