

Southern California Edison
SCE EE Business Plan A.17-01-013

DATA REQUEST SET A.17-01-013-CEE-SCE-002

To: CEE

Prepared by: Joni Key

Title: Project Manager

Dated: 05/18/2017

Question 45a:

Response to Data Request Question 22 states that “For contractors who participate in HVAC Commercial Quality Maintenance (QM) programs, applicable IOUs require skills standards and certification requirements in alignment with the recommendation, fulfilling the commitment outlined in the February 23, 2015 Advice Letter and PIP Addendum.”

This response does not indicate whether any *new* skill standards or certification requirements were adopted *in response* to the February 23, 2015 Advice Letter and PIP Addendum. In addition, this response refers only to “applicable IOUs” and does not indicate whether SCE adopted skills standards or certification requirements for any of its energy efficiency programs.

a. Please identify specifically what, if any, skills standards or certification requirements were added to the HVAC Commercial Quality Maintenance (QM) programs after the February 23, 2015 Advice Letter and PIP Addendum.

Response to Question 45a:

SCE did not adopt additional skills standards or certification requirements for SCE's HVAC Commercial Quality Maintenance (CQM) program after the February 23, 2015 Advice Letter (AL) and PIP Addendum. At the time of the AL and PIP Addendum filing, SCE's HVAC CQM program already included skills standards and certification requirements that fulfilled the commitment.
