Title:

Dated: 03/24/2017

Question 032:

Please explain why the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan does not require energy efficiency programs to ensure that ratepayer-subsidized energy efficiency measures are installed by an adequately trained and skilled workforce.

Response to Question 032:

The term "adequately trained and skilled workforce" is vague and ambiguous as stated in the question. This term is also subjective, however, SCE's Commission approved EE programs only use contractors who comply with all applicable federal, state, regional and local laws, and are licensed and legally authorized to perform such work.
