CEE DATA REQUEST SET TWO (QUESTIONS 38 – 47)

40. Response to CEE SDG&E Data Request Question 5 states that “future Implementation Plans will identify ways in which SDG&E and other IOUs will support disadvantaged workers.”

a. Is this an enforceable commitment set forth in the Business Plan? If yes, where in the Business Plan is this commitment made?

b. Will all Implementation Plans be required to identify ways in which the program will support disadvantaged workers? If the answer is no, identify specifically which Implementation Plans will be required to identify ways in which the program will support disadvantaged workers.

SDG&E Response:

40(a): No, this is not an enforceable commitment set forth in the Business Plan. The purpose of SDG&E’s business plan was to chart a course towards achieving zero net energy and doubling EE, including the goals, strategies and sample tactics to do so. As such, it focuses on sector business plans and not implementation plans.

40(b): No, SDG&E does not anticipate that all implementation plans will be required to identify ways in which the program will support disadvantaged workers. There is a proposed statewide downstream pilot program, the Career and Workforce Readiness Program, which identifies disadvantaged workers as its primary audience. PG&E’s business plan includes the proposed statewide downstream pilot. Please also see Figure 8.18 on page 212 of SDG&E’s business plan, and the CAEECC presentation accessible at the following link for more information:
