QUESTION 4

Regarding the DNV-GL Report titled “Taxonomy of Utility Outsourcing Models” published March 5, 2017, please respond to the following questions:

Please show/describe the PG&E account, and sub-accounts, were charged for this project, and identify which accounts are balancing accounts related to energy efficiency.

ANSWER 4

PG&E has not charged accounts or sub-accounts yet because invoices associated with this project have not been paid. However, PG&E plans to use its energy efficiency program budget and balancing account to fund this work. Since this work supports PG&E’s overall program portfolio, PG&E will likely split the costs associated with this project between its Residential, Commercial, Industrial, and Agricultural program accounts.
