**SUPPLEMENTARY INFORMATION:**

On October 25, 2013, DOE published a NOPR in the Federal Register (78 FR 64067) to make available and invite comments on the proposed rule regarding energy conservation standards for residential furnace fans. That notice set a deadline for the submission of written comment by December 24, 2013, and comments were also accepted at a public meeting held at DOE Headquarters on December 3, 2013. Several stakeholders requested an extension of the comment period. These stakeholders stated the additional time is necessary for interested parties to consider and respond to the proposed rule and public meeting presentation, in order to submit meaningful and useful comments.

After careful consideration of the multiple requests for more time to develop comments, DOE has determined that an extension of the public comment period is appropriate and in the public interest based on the foregoing reasoning. Accordingly, DOE is hereby extending the comment period and will consider any comments received by January 23, 2014.

Issued in Washington, DC, on  
December 18, 2013.
