**Question 17:**

Provide all analyses and reports used to determine the amount of account representative costs charged to energy efficiency balancing accounts for the year 2014-2017.

**Response to Question 17:**

SCE reviews and allocates the amount of account representative time charged to the EE balancing account in its Global Labor Report, which is developed and reviewed periodically. In addition, SCE EE program managers review account representative costs by program for reasonableness and any discrepancies are investigated and resolved. See SCE's response to Question 1 in this data request set (ORA-A1701013-SCE003, Question 1) for copies of the Global Labor Report. Also, see SCE's Responses to the Request for Supplemental Budget and Related Information, A.17-01-013, June 12, 2017, page 7, section E for more information.
