SDG&E 2018-2025 EE Rolling Portfolio Business Plan
ORA DATA REQUEST No. ORA-A1701013-SDGE001 Dated March 1, 2017
Question 36
Submitted: March 22, 2017

Questions in the following four sections on PA statewide program proposals refer to the “Statewide Administration Approach” proposed jointly by PG&E, SCE, SoCalGas, and SDG&E in their whitepaper authored on January 17, 2017 (“Whitepaper”).

Statewide Governance Approach

36. What administrative elements would the governance structure apply to?

SDG&E Response:

The IOUs have identified a number of administrative elements, including: program budgets, program design (to the extent relevant), communication among implementers and PAs, contract and fiscal management, customer satisfaction, custom project support, program scope changes, and a dispute resolution process. These were identified as elements that would benefit from a statewide governance framework in the jointly filed “Statewide Administrative Approach” as a part of the Business Plan application in January 2017.

This document represents the joint IOUs’ initial thoughts on administrating statewide programs and is not intended to be a final framework for administration. The IOUs continue to work collaboratively on the structure and anticipate having more details in place for statewide program implementation.
