Submitted: April 7, 2017

31. How will the 2018-2025 Energy Efficiency Rolling Portfolio Business Plan ensure that midstream and upstream programs do not subsidize energy efficiency equipment or measures that are installed by contractors that violate permit or code requirements?

**SDG&E Response:**

SDG&E's current policies for midstream and upstream programs are in compliance with CPUC and CEC directives and state laws, both general and specific to energy efficiency, relating to contractors. Should any changes occur, SDGE will work with SW Program Administrators and/or the implementers to ensure compliance.
