**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

I just touched base with Sue and SoCalGas will be looking to submit an individual comment letter. Since we can't simply copy and paste from their letter I was thinking we could extract the inputs we had and add our LCC comment etc. please let me know if this is feasible and if you have any questions.

Thank You,

**Daniela Garcia**

Hi Daniela,

wanted to let you know that Bo and I will need to wrap up our contributions to this tomorrow by 5:30pm and 3pm respectively; I have a long standing plan with my kids, and Bo has something else planned as well. Before then, anything goes, including late evening today if necessary. The sooner you could let us know what we still have to do the better.

The deadline has no time associated with it, which technically makes it 9pm tomorrow.

Thanks!!  
Marc

Hi Daniela,

Do you have an update for us on this? How can we assist further? The DOE deadline is tomorrow.

Thanks,

Bo

Hi Sue,

please find attached our updated version of the RFI response, in two versions

- marked up, where all previous edits were accepted excepts yours and Daniela's.

Bo's and my new additions and deletions are tracked, too.

- same as above but completely clean of any tracking, comments or author information.

I attached a few additional ideas in a separate document that we already know are most likely going to be socialgas only, so we haven't fleshed them out or included them yet.

The LCC methodology and problems we see with its data were socialgas-separate earlier, but are now included in Question 4 of the main file.

Take that, PG&E ;)

Cheers
