Question 28
Submitted: April 7, 2017

28. In SDG&E's *draft* Business Plan provided to the CAEECC, SDG&E stated that it "will continue to require contractor qualifications and standards when appropriate so that safety and potential energy savings are fully realized."

- (a) Please describe or identify what contractor qualifications or standards that SDG&E currently requires to ensure safety and that potential energy savings are fully realized.
- (b) Please list the programs that require these contractor qualifications and standards.

SDG&E Response:

- (a) SDG&E includes terms in its contracts requiring that our third party contractors, and each subcontractor or contractor party for those contractors, comply with and observe all applicable federal, state, municipal and local laws for safety and environmental orders.
- (b) The terms and conditions referenced in the response to 27 (a) are standard in all SDG&E contracts and required for all contractors and programs, including energy efficiency contractors and programs.
