DEER Peak Period Refresh: The CAISO Perspective

Delphine Hou

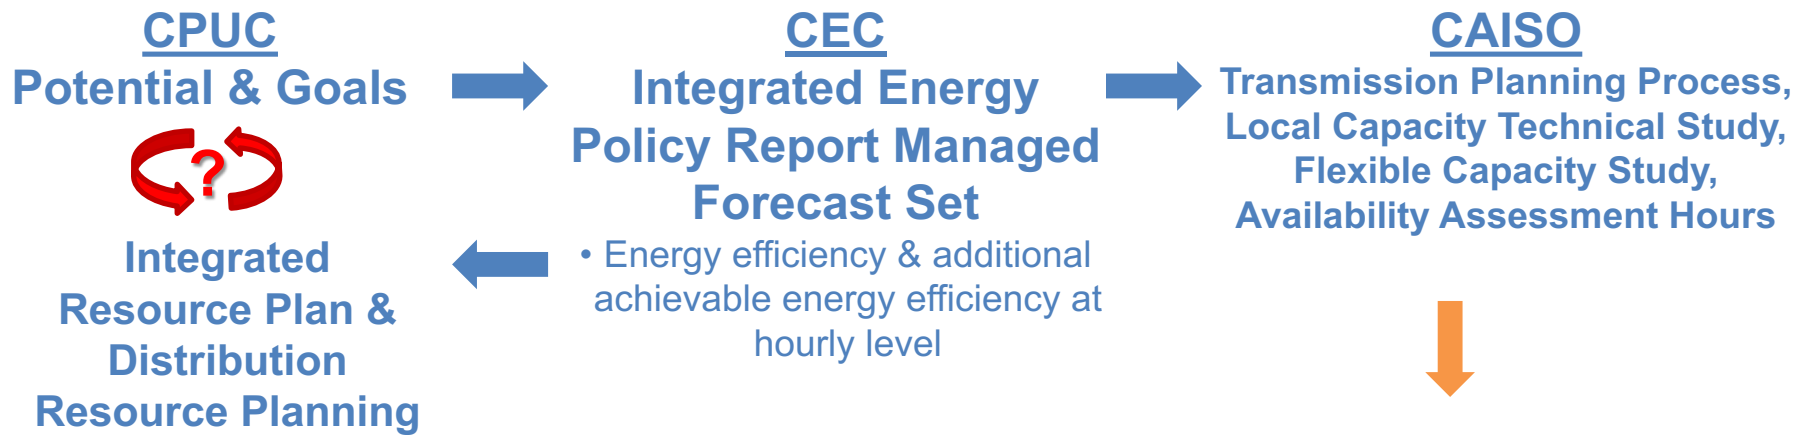

Manager, State Regulatory Affairs

April 3, 2018

CAISO PUBLIC

Energy efficiency from the CAISO perspective

A. Energy efficiency in infrastructure planning & related analyses

C. Peak hour impacts at CPUC

1. Time-of-Use Order Instituting Rulemaking
2. Resource adequacy proceeding (Local Capacity Technical Study, Flexible Capacity Study, Availability Assessment Hours)

B. Peak hour operations impact

1. Duck curve / flexibility & ramping needs
2. Availability Assessment Hours (4pm – 9pm) for resource adequacy availability incentive mechanism (RAAIM)
