OF THE STATE OF CALIFORNIA**

Application of SOUTHERN CALIFORNIA
GAS COMPANY (U 904 G) for Approval of
2024-2031 Energy Efficiency Business Plan and
2024-2027 Portfolio Plan

Application No. 22-03-
(Filed March 4, 2022)

**APPLICATION OF SOUTHERN CALIFORNIA GAS COMPANY (U 904 G)
FOR APPROVAL OF 2024-2031 ENERGY EFFICIENCY STRATEGIC
BUSINESS PLAN AND 2024-2027 PORTFOLIO PLAN**

I. INTRODUCTION

Pursuant to Article 2 of the Rules of Practice and Procedure of the California Public Utilities Commission (“CPUC” or “Commission”), Decision (“D.”) 21-05-031,¹ and the Administrative Law Judge’s (“ALJ”) Procedural Email Providing Guidance on Spreadsheets to be Included in Portfolio Applications,² Southern California Gas Company (“SoCalGas”) respectfully submits this application for approval of its 2024-2031 Energy Efficiency Strategic Business Plan (“Business Plan”) and 2024-2027 Portfolio Plan.

SoCalGas requests the Commission approve a budget cap for 2024 to 2031³ of approximately \$1.45 billion, which includes two four-year portfolio cycles: 2024-2027 and 2028-2031. The proposed budget includes approximately \$124 million requested on behalf of regional energy networks (RENs) within SoCalGas’s service territory.⁴ The first four-year

¹ D.21-05-031, p. 81, Ordering Paragraph (OP) 5. On January 18, 2022, SoCalGas, on behalf of itself and other program administrators submitted a letter to the Executive Director of the CPUC requesting an extension to file to March 4, 2022. This request was approved on January 27, 2022 permitting all program administrators who are going to file energy efficiency applications to file by March 4, 1022.

² Administrative Law Judge’s R.13-11-005 Procedural Email Providing Guidance on Spreadsheets to be Included in Portfolio Applications (February 14, 2022).

³ See D.21-05-031, pp. 29-30.

⁴ This includes Southern California Regional Energy Network, Tri-County Regional Energy Network, and Inland Regional Energy Network.

portfolio cycle, as addressed further in SoCalGas’s Business Plan, covers 2024 to 2027 and includes a revenue requirement of approximately \$669 million, inclusive of approximately \$57 million requested on behalf of RENs in SoCalGas’s service territory.⁵

As outlined in SoCalGas’s Business Plan, SoCalGas will work hand-in-hand with its customers, stakeholders, and the Commission to achieve an energy future that is safe, affordable, reliable, and resilient. SoCalGas intends to lead the transition to resilient and affordable, decarbonized energy, and energy efficiency will be a critical tool for success.

II. BACKGROUND

In D.21-05-031, the Commission altered the process for the submission and approval of Program Administrators’ (“PA”) Energy Efficiency (“EE”) Business Plans. Ordering Paragraph 5 of D.21-05-031 orders all current energy efficiency PAs to file applications on February 15, 2022 for program year 2024, and every four years after that, containing the following elements:

- (a) A business plan to cover an eight-year period. The business plan shall serve as a strategic plan for the energy efficiency efforts of the program administrator, and shall contain sector-level strategies, metrics, and an eight-year budget;
- (b) A four-year program portfolio, beginning with program year 2024. This portion of the application shall contain: detailed sector and program strategies; annual budgets, totaling to a four-year revenue requirement; cost-effectiveness showings over the four-year period; and implementation plans, or links to them, for all programs that are currently operating or planned to operate during the four-year portfolio period, with the exception of third-party programs where the contract has not yet been awarded; and
- (c) The technical inputs given in Table 2 of the decision.⁶

In addition, the Commission adopted major policy changes related to energy efficiency goals, metrics, portfolio segmentation, and cost-effectiveness requirements.⁷ The Commission also stated: “Energy efficiency budgets, goals, and cost-effectiveness forecasts should be cumulative during each four-year portfolio period.”⁸

⁵ A detailed forecast for PY 2028-2031 will be included in the 2026 Application and Business Plan filing.

⁶ D.21-05-031, OP 5.

⁷ *Id.* at 3.

⁸ *Id.* at 77, Conclusion of Law (COL) 24.

In D.21-05-031, OP 6, the Commission required portfolio administrators to use a template developed and maintained by Commission staff for the eight-year portfolio plan and the four-year strategic business plan applications.⁹ On October 20, 2021, Energy Division distributed its Energy Division 2024-2032 Business Plan Templates that include an outline for the narrative portions, attachment tables, and supplemental budget information.¹⁰

SoCalGas prepared its Business Plan and Portfolio Plan in compliance with the direction provided in D.21-05-031 and the templates provided by Energy Division. SoCalGas looks forward to continuing to engage with the Commission and stakeholders and serving its customers through strengthening its longstanding commitment to energy efficiency.

III. SUMMARY OF APPLICATION

This Application consists of three exhibits that contain SoCalGas's proposal for its Business Plan and Program Portfolio. The testimony and supporting materials filed concurrently with this application generally align to and respond to the prompts from the Energy Division template.¹¹ Exhibit 1 covers SoCalGas's 2024-2031 strategic business plan. Exhibit 2 covers SoCalGas's 2024-2027 portfolio plan. Exhibit 3 covers SoCalGas's application data tables and responses, pursuant to the Energy Division template. Each exhibit is summarized further below.

A. Exhibit 1: SoCalGas's 2024-2031 Energy Efficiency Strategic Business Plan

The Business Plan consists of three sections that outline SoCalGas's vision for energy efficiency program delivery for the 2024–2031 cycle, annual portfolio budgets, and recommendations for new or modified energy efficiency policy. Exhibit 1 is the foundation for SoCalGas's Portfolio Plan for 2024-2027, as presented in Exhibit 2. Each section of the Business Plan is summarized below.

1. SoCalGas's Vision for Energy Efficiency in California

This section of Exhibit 1 presents SoCalGas's energy efficiency vision for the state of California for 2024-2031 and describes SoCalGas's goals, objectives, and strategies to achieve that vision. SoCalGas's vision is that SoCalGas's energy efficiency portfolio will accelerate

⁹ *Id.* at 82, OP 6.

¹⁰ R.13-11-005, Energy Division's Notice of Energy Efficiency 2024-2031 Business Plan templates (October 20, 2021).

¹¹ D.21-05-031, p. 82, OP 6. Where necessary, SoCalGas includes additional information and/or integrates similar sections.

California toward achieving its clean energy goals through innovative and comprehensive customer-centric decarbonization solutions. To achieve SoCalGas’s vision, SoCalGas created guiding principles, goals, and strategies. SoCalGas’s vision integrates the ideals of innovation, partnership, and customer-centric approaches to influence customers’ energy efficiency decisions. SoCalGas will continue to be a leader in delivering innovative energy efficiency programs that are valued by customers, sensitive to the environment, stimulate the economy, and make a difference in the communities served.

2. Annual Portfolio Budgets for 2024-2031

This section of Exhibit 1 presents SoCalGas’s annual projected portfolio forecast budgets that sum to its eight-year budget cap request and its forecasts for savings, cost-effectiveness, and Total System Benefit (“TSB”) through 2031. Annual budgets for 2024-2027 program years were developed using a zero-based or “bottoms up” approach which is a budget breakdown by expenditures category. Budget projections for 2028-2031 were projected using a high-level escalation factor and SoCalGas plans to update 2028-2031 budgets in its next Energy Efficiency application. SoCalGas forecasts budget cap for 2024-2031 to be approximately \$1.45 billion, which includes approximately \$124 million requested on behalf of the RENs. For 2024-2027, SoCalGas requests a revenue requirement of approximately \$669 million for its EE portfolio, which includes \$57 million requested on behalf of RENs in SoCalGas’s territory. For 2024-2031, SoCalGas forecasts to achieve a Total Resource Cost (“TRC”) ratio for its resource acquisition segment of 1.23 and a total cumulative TSB of approximately \$1.3 billion. Both a 2023 Portfolio True-Up advice letter and a 2025 Mid-Cycle advice letter will be filed to re-align forecasted budget expenditures with bi-annual Potential and Goals studies.

3. Recommendations for New or Modified Energy Efficiency Policy

This section of Exhibit 1 presents SoCalGas’s proposals for policy modifications to support SoCalGas’s EE vision. Policy considerations have been grouped into two overarching themes: (1) modernizing/expanding the scope of energy efficiency to advance State policies; and (2) recalibrating policies for the current Investor Owned Utility (“IOU”) PA role in energy efficiency.

SoCalGas proposes three policy changes to modernize and expand the scope of energy efficiency to advance State policies. Among other things, these changes are meant to further save natural gas and decarbonize the energy system. These include policy changes to: (1)

incorporate methane reductions into energy efficiency savings, (2) exempt energy efficiency program delivery using utility represented employees from the third-party outsourcing requirement, and (3) update avoided cost benefits to reflect upstream water energy savings for water efficiency measures.

SoCalGas proposes eight policy changes to recalibrate and/or streamline policies for the current IOU PA role in energy efficiency. These include policy changes to: (1) modify the fuel-substitution test to encourage cleaner fuel switching, (2) increase equity and market support funding limits, (3) change the statewide program funding minimum to a target and reassess the value, (4) allow for greater flexibility in third-party program solicitations, (5) improve the current advice letter process for third-party contracts, (6) revisit the current *ex ante* review process, (7) expansion of strategic energy management strategy to all non-residential sectors, and (8) introduce real-time evaluation, measurement, and verification (“EM&V”) to estimate program attribution.

B. Exhibit 2: SoCalGas’s 2024-2027 Portfolio Plan

Exhibit 2 presents SoCalGas’s four-year portfolio plan (2024-2027) for its energy efficiency programs. SoCalGas’s Business Plan, as described in Exhibit 1, serves as the foundation for SoCalGas’s first four-year portfolio plan cycle. The Portfolio Plan consists of seven sections that outline SoCalGas’s segment and sector strategies for energy efficiency program delivery for the 2024–2031 cycle. Each section of the Portfolio Plan is summarized below.

1. Portfolio Summary

This section of SoCalGas’s Portfolio Plan presents an overall summary of SoCalGas’s 2024-2027 portfolio plan, which is the first four-year period of the eight-year cycle. This section discusses how SoCalGas plans to reach its goals during the first four-year portfolio period. Pursuant to the Energy Division template, this section also includes SoCalGas’s application summary budget tables, including SoCalGas’s 2024-2027 total system benefit forecast compared to goal:

PY	Total System Benefit (TSB) CPUC Goal*	SoCalGas TSB Forecast*	Forecast compared to Goal
2024	\$94,305,917	\$145,057,071	154%

2025	\$105,511,595	\$153,587,745	146%
2026	\$115,302,575	\$159,287,464	138%
2027	\$131,937,530	\$170,538,806	129%
Total	\$447,057,617	\$628,471,086	141%

*Goal and forecast values do not include contributions from RENs or Codes and Standards.

2. Forecast Methodology

This section of SoCalGas’s Portfolio Plan includes SoCalGas’s EE portfolio budget and forecast methodology for 2024-2027. In compliance with D.21-05-031, SoCalGas discusses its zero-based budgeting approach.¹² SoCalGas provides a breakdown of forecast expenditures by cost category and associated forecast benefits via performance metrics and quantitative contributions toward portfolio goals.

SoCalGas requests approximately \$612 million for its total 2024-2027 budget specific to SoCalGas’s EE portfolio.

3. Segmentation Strategy

This section of SoCalGas’s Portfolio Plan includes SoCalGas’s strategy for portfolio segmentation for 2024-2027, as directed by D.21-05-031 and the ED template. The Commission in D.21-05-031 changed the prior energy efficiency portfolio structure and created three portfolio segment types: resource acquisition, market support, and equity.¹³ This section discusses how SoCalGas categorizes its EE programs into these segments.

SoCalGas’s 2024-2027 portfolio budget, excluding RENs, for these segments is allocated as follows:

Resource Acquisition: 66.2% or approximately \$404.9 million.

Equity: 14.0% or approximately \$85.9 million.

¹² D.21-05-031, p. 34 (zero-based means that “all expenses must be justified for each year of the new four-year period, after analyzing each function within the budget for its needs and costs.”)

¹³ *Id.* at 81, OP 2.

Market Support: 14.8% or approximately \$90.6 million.

Codes and Standards remains a separate and fourth segment.¹⁴ As directed by the Commission, SoCalGas will limit its codes and standards role to only “transfer ratepayer funds to the statewide lead for codes and standards[.]”¹⁵

4. Sector Strategy

This section of SoCalGas’s Portfolio Plan includes SoCalGas’s detailed description of programs within SoCalGas’s sectors in its 2024-2027 portfolio, including programs that SoCalGas plans to continue through 2024-2027. The sectors includes residential, commercial, industrial agricultural, and public, as well as the cross-cutting sectors emerging technologies, workforce education and training outreach, and finance. SoCalGas discusses specific sectors in detail, with all sectors including discussion regarding: goals, objectives, and strategies; sector specific coordination; program details; and new programs proposed (if any).

5. Portfolio Management

This section of SoCalGas’s Portfolio Plan includes SoCalGas’s EE portfolio management for 2024-2027, including SoCalGas’s strategies to optimize and manage its EE portfolio. SoCalGas will look for new, innovative ways to meet is portfolio objectives, from leveraging the creative programs designed by the third-party implementer community to creating synergistic strategies through partnership with other entities. A significant part of this chapter discusses SoCalGas’s third-party programs and SoCalGas’s proposals for improving the solicitation process.

6. Evaluation, Measurement, and Verification

This section of SoCalGas’s Portfolio Plan summarizes SoCalGas’s planned EE evaluation, measurement, and verification (“EM&V”) activities for 2024-2027. SoCalGas plans to maintain the core objective to evaluate, measure, and verify the performance and savings of its energy efficiency programs, while aiming to support the achievement of the CPUC’s savings goals, portfolio segmentation, and other policy objectives. SoCalGas proposes four areas of focus to provide support for program segments and portfolio achievement:

¹⁴ D.21-05-031, p. 16.

¹⁵ D.18-05-041, OP 53.

- Portfolio *Ex Ante* Savings
- Portfolio Optimization and Evolution
- Support Program Impacts (*Ex Post*)
- General Portfolio and Program EM&V Support

7. Cost and Cost Recovery

This section of SoCalGas’s Portfolio Plan includes SoCalGas’s proposed costs and cost recovery for its 2024-2027 portfolio. SoCalGas does not propose any changes to the existing EE balancing accounts or treatment of any unspent, uncommitted funds for 2024-2027. SoCalGas’s energy efficiency portfolio costs are recovered through its Demand Side Management Balancing Account (DSMBA).¹⁶ For statewide programs, SoCalGas utilizes its Statewide Energy Efficiency Balancing Account (SWEEBA)¹⁷ for state-wide programs led by SoCalGas. Funds in SWEEBA are sourced from other IOUs’ contributions and SoCalGas’s DSMBA. SoCalGas’s current budget commitment process is developed in accordance with D.12-11-015 and remains applicable for the four-year portfolio budget cycle. Approved funds that have neither been spent or committed at the end of the budget cycle are generally returned to ratepayers, either by offsetting future revenue requirements or as directed by the Commission.

C. Exhibit 3: SoCalGas’s Responses, Pursuant to Energy Division Template

SoCalGas includes data tables and supplemental budget information pursuant to the Energy Division template and further direction. Specifically, Exhibit 3 includes budget tables (Appendix A), a supplementary budget narrative (Appendix B), Program Cards (Appendix C), the EE organizational chart (Appendix D), and confirmation of the CEDARS upload (Appendix E).

IV. STATUTORY AND PROCEDURAL REQUIREMENTS

A. Rule 2.1 (a) – (c)

This Application is made pursuant to Sections 451, 454, 454.56, 489, 491, 701, 701.1, 728, 729, and 1701 of the Public Utilities Code of the State of California, the Commission’s Rules of Practice and Procedure, and relevant decisions, orders, and resolutions of the

¹⁶ SoCalGas Preliminary Statement, Part V, Balancing Accounts, Demand Side Management Balancing Account, available at <https://tariff.socalgas.com/regulatory/tariffs/tm2/pdf/DSMBA.pdf>.

¹⁷ SoCalGas Preliminary Statement, Part V, Balancing Accounts, Statewide Energy Efficiency Balancing Account, available at <https://tariff.socalgas.com/regulatory/tariffs/tm2/pdf/SWEEBA.pdf>

Commission. In accordance with Rule 2.1 (a) - (c) of the Commission’s Rules of Practice and Procedure, SoCalGas provides the following information.

1. Rule 2.1(a) – Legal Name

SoCalGas is a corporation organized and existing under the laws of the State of California. SoCalGas’s principal place of business and mailing address is 555 West Fifth Street, Los Angeles, California 90013.

2. Rule 2.1(b) – Correspondence

Correspondence and communications regarding this Application should be addressed to:

Kristine Huliganga
Regulatory Case Manager
SOUTHERN CALIFORNIA GAS COMPANY
555 West Fifth Street, Ste. 1400
Los Angeles, CA 90013
Telephone: (213) 231-6987
Facsimile: (213) 244-4957
Email: khuliganga@socalgas.com

A copy should also be sent to:

Holly A. Jones
Senior Counsel
SOUTHERN CALIFORNIA GAS COMPANY
555 West Fifth Street, Ste. 1400
Los Angeles, CA 90013
Telephone: (213) 244-2232
Facsimile: (213) 244-4957
Email: hajones@socalgas.com

3. Rule 2.1(c)

a) Proposed Category of Proceeding

SoCalGas proposes that this proceeding be categorized as “ratesetting” under Rule 1.3(e) as the most appropriate of the available categories.

b) Need for Hearings

SoCalGas does not anticipate the need for evidentiary or public hearings, given this Application is being filed for the primary purpose of submitting its Business Plan, as ordered by the Commission, which provides a high-level view of SoCalGas’s plan to meet the Commission’s energy efficiency related goals and strategies. As it has done in R.13-11-005, the Commission can receive stakeholder input through the commenting process. However, in the

event hearings are necessary, SoCalGas’s proposed schedule (below) incorporates hearing/workshop dates.

c) Issues to be Considered

The principal issues to be considered in this proceeding are: (1) whether SoCalGas’s Business Plan should be adopted as filed, and (2) whether the policy considerations tendered in conjunction with the Business Plan should be adopted in this proceeding. This Application does not identify any safety considerations associated with the requested relief.

d) Proposed Schedule

SoCalGas proposes the following schedule for this Application:

Date	Activity
March 4, 2022	SoCalGas Application Filed
March 10, 2022	CAEECC Workshop
30 days from the Application’s Appearance on the Daily Calendar	Protests to SoCalGas Application
10 days from Response/Protest Deadline	SoCalGas Reply to Protests
April 18-May 3, 2022 ¹⁸	Prehearing Conference (PHC), PHC Statements, and Scoping Memo
Summer 2022	Workshops, if needed
December 1, 2022	Intervenor Testimony / Deadline to file motion for evidentiary hearings
January 30, 2023	Rebuttal Testimony Due
February 9, 2023	Meet and Confer Pursuant to Rule 13.9
March 15-24, 2023	Evidentiary Hearings (if needed)
March 24, 2023	Discovery Cutoff
May 9, 2023	Concurrent Opening Briefs (if needed)
June 8, 2023	Concurrent Reply Briefs (if needed)

¹⁸ Rule 7.2(a) sets a date range for a pre-hearing conference to be set 45-60 days after the initiation of the proceeding or as soon as practicable after the Commission makes the assignment. The proposed date for a PHC is based upon Commission consolidation of all PA applications prior to a PHC.

August 2023	Proposed Decision
September 1, 2023	True-Up Advice Letter
September 2023	Final Decision

SoCalGas is amenable to working with parties to come up with a mutually agreeable proposed schedule.

B. Rule 2.2 – Articles of Incorporation

A copy of SoCalGas’s Restated Articles of Incorporation, as last amended, presently in effect and certified by the California Secretary of State, was previously filed with the Commission on October 1, 1998, in connection with application (“A.”) 98-10-012, and is incorporated herein by reference.

C. Rule 3.2(a)-(d)

Rule 3.2 of the Commission’s Rules of Practice and Procedure applies to applications “for authority to increase rates, or to implement changes that would result in increased rates.” In accordance with Rule 3.2(a) –(d) of the Commission’s Rules of Practice and Procedure, SoCalGas provides the following information.

1. Rule 3.2(a)(1) – Balance Sheet and Income Statement

Attachment A of this Application presents SoCalGas’s most current balance sheet and an income statement for the period ending September 30, 2021.

2. Rule 3.2(a)(2) and (3) – Statement of Present and Proposed Rates

The rate changes that will result from this Application are described in Attachment B.

3. Rule 3.2(a)(4) – Description of Applicant’s Property and Equipment

A general description of SoCalGas’s property and equipment was previously filed with the Commission on May 3, 2004 in connection with SoCalGas’s Application 04-05-008, and is incorporated herein by reference. A statement of Original Cost and Depreciation Reserve as of September 30, 2021, is attached as Attachment C.

4. Rules 3.2(a)(5) and (6) – Summary of Earnings

The summary of earnings for SoCalGas is included herein as Attachment D.

5. Rule 3.2(a)(7) – Depreciation

For financial statement purposes, depreciation of utility plant has been computed on a straight-line remaining life basis at rates based on the estimated useful lives of plant properties.

For federal income tax accrual purposes, SoCalGas has generally computed depreciation using the straight-line method for tax property additions prior to 1954, and liberalized depreciation, which includes Class Life and Asset Depreciation Range Systems, on tax property additions after 1954 and prior to 1981. For financial reporting and rate-making purposes, “flow through accounting” has been adopted for such properties. For tax property additions in years 1981 through 1986, SoCalGas has computed its tax depreciation using the Accelerated Cost Recovery System. For years after 1986, SoCalGas has computed its tax depreciation using the Modified Accelerated Cost Recovery Systems and, since 1982, has normalized the effects of the accelerated depreciation differences in accordance with the Economic Recovery Tax Act of 1981, the Tax Reform Act of 1986, and the Tax Cuts and Jobs Act of 2017.

6. Rule 3.2(a)(8) – Proxy Statement

A copy of SoCalGas’s most recent proxy statement, dated April 27, 2021, was mailed to the Commission on April 27, 2021, and is incorporated herein by reference.

7. Rule 3.2(a)(1) – Pass Through of Costs

The changes that SoCalGas seeks in this Application reflect estimated costs to SoCalGas and passes through to customers only costs that SoCalGas incurs for the services and commodities that it furnishes.

8. Rule 3.2(b) – Notice to State, Cities and Counties

SoCalGas will, within twenty days after filing this Application, mail a notice to the State of California and to the cities and counties in its service territory.

9. Rule 3.2(c) – Newspaper Publication

SoCalGas will, within twenty days after the filing of this Application, publish in newspapers of general circulation in each county in its service territory notice of this Application.

10. Rule 3.2(d) – Bill Insert Notice

SoCalGas will, within 45 days after the filing of this Application, provide notice of this Application to its customers along with the regular bills sent to those customers that will generally describe the proposed rate changes addressed in this Application.

D. Rule 1.9 Service

This is a new application and no service list has been established. Accordingly, SoCalGas will serve this application on the Chief Administrative Law Judge and the parties to the service

list for R.13-11-005 by electronic mail and by U.S. mail to those parties who have not provided an electronic address to the Commission.

V. CONCLUSION

For the reasons set forth in this Application and accompanying testimony, SoCalGas respectfully requests the Commission to:

- 1) Approve SoCalGas's Strategic Business Plan for 2024-2031.
- 2) Approve SoCalGas's requested changes to Commission-adopted policies, as described further in Exhibit 1.
- 3) Grant such other relief as is necessary and proper.
